SUBCHAPTER I—GENERALLY

§ 1801. Findings, purposes and policy

(a) Findings

The Congress finds and declares the following:

(1) The fish off the coasts of the United States, the highly migratory species of the high seas, the species which dwell on or in the Continental Shelf appertaining to the United States, and the anadromous species which spawn in United States rivers or estuaries, constitute valuable and renewable natural resources. These fishery resources contribute to the food supply, economy, and health of the Nation and provide recreational opportunities.

(2) Certain stocks of fish have declined to the point where their survival is threatened, and other stocks of fish have been so substantially reduced in number that they could become similarly threatened as a consequence of (A) increased fishing pressure, (B) the inadequacy of fishery resource conservation and management practices and controls, or (C) direct and indirect habitat losses which have resulted in a diminished capacity to support existing fishing levels.

(3) Commercial and recreational fishing constitutes a major source of employment and contributes significantly to the economy of the Nation. Many coastal areas are dependent upon fishing and related activities, and their economies have been badly damaged by the

overfishing of fishery resources at an ever-increasing rate over the past decade. The activities of massive foreign fishing fleets in waters adjacent to such coastal areas have contributed to such damage, interfered with domestic fishing efforts, and caused destruction of the fishing gear of United States fishermen.

(4) International fishery agreements have not been effective in preventing or terminating the overfishing of these valuable fishery resources. There is danger that irreversible effects from overfishing will take place before an effective international agreement on fishery management jurisdiction can be negotiated, signed, ratified, and implemented.

(5) Fishery resources are finite but renewable. If placed under sound management before overfishing has caused irreversible effects, the fisheries can be conserved and maintained so as to provide optimum yields on a continuing basis.

(6) A national program for the conservation and management of the fishery resources of the United States is necessary to prevent overfishing, to rebuild overfished stocks, to insure conservation, to facilitate long-term protection of essential fish habitats, and to realize the full potential of the Nation's fishery resources.

(7) A national program for the development of fisheries which are underutilized or not utilized by the United States fishing industry, including bottom fish off Alaska, is necessary to assure that our citizens benefit from the employment, food supply, and revenue which could be generated thereby.

(8) The collection of reliable data is essential to the effective conservation, management, and scientific understanding of the fishery resources of the United States.

(9) One of the greatest long-term threats to the viability of commercial and recreational fisheries is the continuing loss of marine, estuarine, and other aquatic habitats. Habitat considerations should receive increased attention for the conservation and management of fishery resources of the United States.

(10) Pacific Insular Areas contain unique historical, cultural, legal, political, and geographical circumstances which make fisheries resources important in sustaining their economic growth.

(11) A number of the Fishery Management Councils have demonstrated significant progress in integrating ecosystem considerations in fisheries management using the existing authorities provided under this chapter.

(12) International cooperation is necessary to address illegal, unreported, and unregulated fishing and other fishing practices which may harm the sustainability of living marine resources and disadvantage the United States fishing industry.

(b) Purposes

It is therefore declared to be the purposes of the Congress in this chapter—

(1) to take immediate action to conserve and manage the fishery resources found off the coasts of the United States, and the anadromous species and Continental Shelf fishery

resources of the United States, by exercising (A) sovereign rights for the purposes of exploring, exploiting, conserving, and managing all fish, within the exclusive economic zone established by Presidential Proclamation 5030, dated March 10, 1983, and (B) exclusive fishery management authority beyond the exclusive economic zone over such anadromous species and Continental Shelf fishery resources;

(2) to support and encourage the implementation and enforcement of international fishery agreements for the conservation and management of highly migratory species, and to encourage the negotiation and implementation of additional such agreements as necessary;

(3) to promote domestic commercial and recreational fishing under sound conservation and management principles, including the promotion of catch and release programs in recreational fishing;

(4) to provide for the preparation and implementation, in accordance with national standards, of fishery management plans which will achieve and maintain, on a continuing basis, the optimum yield from each fishery;

(5) to establish Regional Fishery Management Councils to exercise sound judgment in the stewardship of fishery resources through the preparation, monitoring, and revision of such plans under circumstances (A) which will enable the States, the fishing industry, consumer and environmental organizations, and other interested persons to participate in, and advise on, the establishment and administration of such plans, and (B) which take into account the social and economic needs of the States;

(6) to encourage the development by the United States fishing industry of fisheries which are currently underutilized or not utilized by United States fishermen, including bottom fish off Alaska, and to that end, to ensure that optimum yield determinations promote such development in a non-wasteful manner; and

(7) to promote the protection of essential fish habitat in the review of projects conducted under Federal permits, licenses, or other authorities that affect or have the potential to affect such habitat.

(c) Policy

It is further declared to be the policy of the Congress in this chapter—

(1) to maintain without change the existing territorial or other ocean jurisdiction of the United States for all purposes other than the conservation and management of fishery resources, as provided for in this chapter;

(2) to authorize no impediment to, or interference with, recognized legitimate uses of the high seas, except as necessary for the conservation and management of fishery resources, as provided for in this chapter;

(3) to assure that the national fishery conservation and management program utilizes, and is based upon, the best scientific information available; involves, and is responsive to the needs of, interested and affected States and citizens; considers efficiency; draws upon

Federal, State, and academic capabilities in carrying out research, administration, management, and enforcement; considers the effects of fishing on immature fish and encourages development of practical measures that minimize bycatch and avoid unnecessary waste of fish; and is workable and effective;

(4) to permit foreign fishing consistent with the provisions of this chapter;

(5) to support and encourage active United States efforts to obtain internationally acceptable agreements which provide for effective conservation and management of fishery resources, and to secure agreements to regulate fishing by vessels or persons beyond the exclusive economic zones of any nation;

(6) to foster and maintain the diversity of fisheries in the United States; and

(7) to ensure that the fishery resources adjacent to a Pacific Insular Area, including resident or migratory stocks within the exclusive economic zone adjacent to such areas, be explored, developed, conserved, and managed for the benefit of the people of such area and of the United States.

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in furtherance of the purposes of the Fish and Wildlife Act of 1956 (16 U.S.C. 742a-d, and e-j), the Fish and Wildlife Coordination Act (16 U.S.C. 661-666c), the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), the National Marine Sanctuaries Act of 1972 (16 U.S.C. 1431 *et seq.*), the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-ee), the National Park Service Organic Act (16 U.S.C. 1 *et seq.*), the National Historic Preservation Act (16 U.S.C. 470 *et seq.*), [the] Wilderness Act (16 U.S.C. 1131 *et seq.*), the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), the Coastal Zone Management Act [of 1972] (16 U.S.C. 1451 *et seq.*), the Outer Continental Shelf Lands Act (43 U.S.C. 1331 *et seq.*), and other pertinent statutes, and in order to conserve, restore, and enhance aquatic systems to provide for increased recreational fishing opportunities nationwide, it is ordered as follows:

SECTION 1. *Federal Agency Duties.* Federal agencies shall, to the extent permitted by law and where practicable, and in cooperation with States and Tribes, improve the quantity, function, sustainable productivity, and distribution of U.S. aquatic resources for increased recreational fishing opportunities by: (a) developing and encouraging partnerships between governments and the private sector to advance aquatic resource conservation and enhance recreational fishing opportunities;

(b) identifying recreational fishing opportunities that are limited by water quality and habitat degradation and promoting restoration to support viable, healthy, and, where feasible, self-sustaining recreational fisheries;

(c) fostering sound aquatic conservation and restoration endeavors to benefit recreational fisheries;

(d) ensuring that recreational fishing shall be managed as a sustainable activity in national wildlife refuges, national parks, national monuments, national marine sanctuaries, marine protected areas, or any other relevant conservation or management areas or activities under any Federal authority, consistent with applicable law;

(e) providing access to and promoting awareness of opportunities for public participation and enjoyment of U.S. recreational fishery resources;

(f) supporting outreach programs designed to stimulate angler participation in the conservation and restoration of aquatic systems;

(g) implementing laws under their purview in a manner that will conserve, restore, and enhance aquatic systems that support recreational fisheries;

(h) establishing cost-share programs, under existing authorities, that match or exceed Federal funds with nonfederal contributions;

(i) evaluating the effects of Federally funded, permitted, or authorized actions on aquatic systems and recreational fisheries and document those effects relative to the purpose of this order; and

(j) assisting private landowners to conserve and enhance aquatic resources on their lands.

SEC. 2. *National Recreational Fisheries Coordination Council.* A National Recreational Fisheries Coordination Council (“Coordination Council”) is hereby established. The Coordination Council shall consist of seven members, one member designated by each of the following Secretaries—Interior, Commerce, Agriculture, Energy, Transportation, and Defense—and one by the Administrator of the Environmental Protection Agency. The Coordination Council shall: (a) ensure that the social and economic values of healthy aquatic systems that support recreational fisheries are considered by Federal agencies in the course of their actions;

(b) reduce duplicative and cost-inefficient programs among Federal agencies involved in conserving or managing recreational fisheries;

(c) share the latest resource information and management technologies to assist in the conservation and management of recreational fisheries;

(d) assess the implementation of the Conservation Plan required under section 3 of this order; and

(e) develop a biennial report of accomplishments of the Conservation Plan.

The representatives designated by the Secretaries of Commerce and the Interior shall cochair the Coordination Council.

SEC. 3. *Recreational Fishery Resources Conservation Plan.* (a) Within 12 months of the date of this order, the Coordination Council, in cooperation with Federal agencies, States, and Tribes, and after consulting with the Federally chartered Sport Fishing and Boating Partnership Council, shall develop a comprehensive Recreational Fishery Resources Conservation Plan (“Conservation Plan”).

(b) The Conservation Plan will set forth a 5-year agenda for Federal agencies identified by the Coordination Council. In so doing, the Conservation Plan will establish, to the extent permitted by law and where practicable; (1) measurable objectives to conserve and restore aquatic systems that support viable and healthy recreational fishery resources, (2) actions to be taken by the identified Federal agencies, (3) a method of ensuring the accountability of such Federal agencies, and (4) a comprehensive mechanism to evaluate achievements. The Conservation Plan will, to the extent practicable, be integrated with existing plans and programs, reduce duplication, and will include recommended actions for cooperation with States, Tribes, conservation groups, and the recreational fisheries community.

SEC. 4. *Joint Policy for Administering the Endangered Species Act of 1973.* All Federal agencies will aggressively work to identify and minimize conflicts between recreational fisheries and their respective responsibilities under the Endangered Species Act of 1973 (“ESA”) (16 U.S.C. 1531 *et seq.*). Within 6 months of the date of this order, the Fish and Wildlife Service and the National Marine Fisheries Service will promote compatibility and reduce conflicts between the administration of the ESA and recreational fisheries by developing a joint agency policy that will; (1) ensure consistency in the administration of the ESA between and within the two agencies, (2) promote collaboration with other Federal, State, and Tribal fisheries managers, and (3) improve and increase efforts to inform nonfederal entities of the requirements of the ESA.

SEC. 5. *Sport Fishing and Boating Partnership Council.* To assist in the implementation of this order, the Secretary of the Interior shall expand the role of the Sport

Fishing and Boating Partnership Council to: (a) monitor specific Federal activities affecting aquatic systems and the recreational fisheries they support;

(b) review and evaluate the relation of Federal policies and activities to the status and conditions of recreational fishery resources; and

(c) prepare an annual report of its activities, findings, and recommendations for submission to the Coordination Council.

SEC. 6. *Judicial Review.* This order is intended only to improve the internal management of the executive branch and it is not intended to create any right, benefit or trust responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or any other person.

REFERENCES IN TEXT

This chapter, referred to in text, was in the original “this Act”, meaning Pub. L. 94-265, Apr. 13, 1976, 90 Stat. 331, as amended, known as the Magnuson-Stevens Fishery Conservation and Management Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 1801 of this title and Tables.

Proclamation Numbered 5030, referred to in par. (11), is set out under section 1453 of this title.

CODIFICATION

In par. (49), “section 70502(c) of title 46” substituted for “section 3(c) of the Maritime Drug Law Enforcement Act (46 U.S.C. App. 1903(c))” on authority of Pub. L. 109-304, § 18(c), Oct. 6, 2006, 120 Stat. 1709, which Act enacted section 70502 of Title 46, Shipping.

Pub. L. 102-251, § 301(b), which directed amendment of this section by adding a new par. (24) defining “special areas” and redesignating former pars. (24) to (32) as (25) to (33), respectively, was to be effective on the date on which the Agreement between the United States and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990, enters into force for United States, but will not be executed, to reflect the probable intent of Congress, because the amendments would be inconsistent with the amendments by Pub. L. 104-297 which added par. (36) (now par. (41)) which is substantially identical to the par. (24) added by Pub. L. 102-251, made successive redesignations of pars. (2) to (44), and added and amended various other pars. See 1996 Amendment notes below and section 308 of Pub. L. 102-251, set out as an Effective Date of 1992 Amendment note under section 773 of this title.

Pub. L. 104-297, § 102(2)(A), which directed substitution of “Cnidaria” for “Coelenterata” in heading of list of corals, was executed by making the substitution for “Coelenterata” in that heading to reflect the probable intent of Congress.

Pub. L. 104-297, § 102(1), redesignated par. (4) as (7). Former par. (7) redesignated (10).

Par. (8). Pub. L. 104-297, § 102(1), redesignated par. (5) as (8). Former par. (8) redesignated (11).

In managing any fisheries under an international fisheries agreement to which the United States is a party, the appropriate Council or Secretary shall take into account the traditional participation in the fishery, relative to other nations, by fishermen of the United States on fishing vessels of the United States.

(c) Promotion of stock management

If a relevant international fisheries organization does not have a process for developing a formal plan to rebuild a depleted stock, an overfished stock, or a stock that is approaching a condition of being overfished, the provisions of this chapter in this regard shall be communicated to and promoted by the United States in the international or regional fisheries organization.

SUBCHAPTER III—FOREIGN FISHING AND INTERNATIONAL FISHERY AGREEMENTS

§ 1821. Foreign fishing

(a) In general

After February 28, 1977, no foreign fishing is authorized within the exclusive economic zone, or for anadromous species or Continental Shelf fishery resources beyond the exclusive economic zone, unless such foreign fishing—

(1) is authorized under subsections (b) or (c) of this section or section 1824(e) of this title, or under a permit issued under section 1824(d) of this title;

(2) is not prohibited under subsection (f) of this section; and

(3) is conducted under, and in accordance with, a valid and applicable permit issued pursuant to section 1824 of this title.

(b) Existing international fishery agreements

Foreign fishing described in subsection (a) of this section may be conducted pursuant to an

international fishery agreement (subject to the provisions of section 1822(b) or (c) of this title), if such agreement—

(1) was in effect on April 13, 1976; and

(2) has not expired, been renegotiated, or otherwise ceased to be of force and effect with respect to the United States.

(c) Governing international fishery agreements

Foreign fishing described in subsection (a) of this section may be conducted pursuant to an international fishery agreement (other than a treaty) which meets the requirements of this subsection if such agreement becomes effective after application of section 1823 of this title. Any such international fishery agreement shall hereafter in this chapter be referred to as a “governing international fishery agreement”. Each governing international fishery agreement shall acknowledge the exclusive fishery management authority of the United States, as set forth in this chapter. It is the sense of the Congress that each such agreement shall include a binding commitment, on the part of such foreign nation and its fishing vessels, to comply with the following terms and conditions:

(1) The foreign nation, and the owner or operator of any fishing vessel fishing pursuant to such agreement, will abide by all regulations promulgated by the Secretary pursuant to this chapter, including any regulations promulgated to implement any applicable fishery management plan or any preliminary fishery management plan.

(2) The foreign nation, and the owner or operator of any fishing vessel fishing pursuant to such agreement, will abide by the requirement that—

(A) any officer authorized to enforce the provisions of this chapter (as provided for in section 1861 of this title) be permitted—

(i) to board, and search or inspect, any such vessel at any time,

(ii) to make arrests and seizures provided for in section 1861(b) of this title whenever such officer has reasonable cause to believe, as a result of such a search or inspection, that any such vessel or any person has committed an act prohibited by section 1857 of this title, and

(iii) to examine and make notations on the permit issued pursuant to section 1824 of this title for such vessel;

(B) the permit issued for any such vessel pursuant to section 1824 of this title be prominently displayed in the wheelhouse of such vessel;

(C) transponders, or such other appropriate position-fixing and identification equipment as the Secretary of the department in which the Coast Guard is operating determines to be appropriate, be installed and maintained in working order on each such vessel;

(D) United States observers required under subsection (h) of this section be permitted to be stationed aboard any such vessel and that all of the costs incurred incident to such stationing, including the costs of data editing and entry and observer monitoring, be paid for, in accordance with such subsection, by the owner or operator of the vessel;

(E) any fees required under section 1824(b)(10) of this title be paid in advance;

(F) agents be appointed and maintained within the United States who are authorized to receive and respond to any legal process issued in the United States with respect to such owner or operator; and

(G) responsibility be assumed, in accordance with any requirements prescribed by the Secretary, for the reimbursement of United States citizens for any loss of, or damage to, their fishing vessels, fishing gear, or catch which is caused by any fishing vessel of that nation;

and will abide by any other monitoring, compliance, or enforcement requirement related to fishery conservation and management which is included in such agreement.

(3) The foreign nation and the owners or operators of all of the fishing vessels of such nation shall not, in any year, harvest an amount of fish which exceeds such nation's allocation of the total allowable level of foreign fishing, as determined under subsection (e) of this section.

(4) The foreign nation will—

(A) apply, pursuant to section 1824 of this title, for any required permits;

(B) deliver promptly to the owner or operator of the appropriate fishing vessel any permit which is issued under that section for such vessel;

(C) abide by, and take appropriate steps under its own laws to assure that all such owners and operators comply with, section 1824(a) of this title and the applicable conditions and restrictions established under section 1824(b)(7) of this title; and

(D) take, or refrain from taking, as appropriate, actions of the kind referred to in subsection (e)(1) of this section in order to receive favorable allocations under such subsection.

(d) Total allowable level of foreign fishing

The total allowable level of foreign fishing, if any, with respect to any fishery subject to the exclusive fishery management authority of the United States, is that portion of the optimum yield of such fishery which cannot, or will not, be harvested by vessels of the United States, as determined in accordance with this chapter. Allocations of the total allowable level of foreign fishing are discretionary, except that the total allowable level shall be zero for fisheries determined by the Secretary to have adequate or excess domestic harvest capacity.

(e) Allocation of allowable level

(1)(A) The Secretary of State, in cooperation with the Secretary, may make allocations to foreign nations from the total allowable level of foreign fishing which is permitted with respect to each fishery subject to the exclusive fishery management authority of the United States.

(B) From the determinations made under subparagraph (A), the Secretary of State shall compute the aggregate of all of the fishery allocations made to each foreign nation.

(C) The Secretary of State shall initially release to each foreign nation for harvesting up to

50 percent of the allocations aggregate computed for such nation under subparagraph (B), and such release of allocation shall be apportioned by the Secretary of State, in cooperation with the Secretary, among the individual fishery allocations determined for that nation under subparagraph (A). The basis on which each apportionment is made under this subparagraph shall be stated in writing by the Secretary of State.

(D) After the initial release of fishery allocations under subparagraph (C) to a foreign nation, any subsequent release of an allocation for any fishery to such nation shall only be made—

(i) after the lapse of such period of time as may be sufficient for purposes of making the determination required under clause (ii); and

(ii) if the Secretary of State and the Secretary, after taking into account the size of the allocation for such fishery and the length and timing of the fishing season, determine in writing that such nation is complying with the purposes and intent of this paragraph with respect to such fishery.

If the foreign nation is not determined under clause (ii) to be in such compliance, the Secretary of State shall reduce, in a manner and quantity he considers to be appropriate (I) the remainder of such allocation, or (II) if all of such allocation has been released, the next allocation of such fishery, if any, made to such nation.

(E) The determinations required to be made under subparagraphs (A) and (D)(ii), and the apportionments required to be made under subparagraph (C), with respect to a foreign nation shall be based on—

(i) whether, and to what extent, such nation imposes tariff barriers or nontariff barriers on the importation, or otherwise restricts the market access, of both United States fish and fishery products, particularly fish and fishery products for which the foreign nation has requested an allocation;

(ii) whether, and to what extent, such nation is cooperating with the United States in both the advancement of existing and new opportunities for fisheries exports from the United States through the purchase of fishery products from United States processors, and the advancement of fisheries trade through the purchase of fish and fishery products from United States fishermen, particularly fish and fishery products for which the foreign nation has requested an allocation;

(iii) whether, and to what extent, such nation and the fishing fleets of such nation have cooperated with the United States in the enforcement of United States fishing regulations;

(iv) whether, and to what extent, such nation requires the fish harvested from the exclusive economic zone for its domestic consumption;

(v) whether, and to what extent, such nation otherwise contributes to, or fosters the growth of, a sound and economic United States fishing industry, including minimizing gear conflicts with fishing operations of United States fishermen, and transferring harvesting or processing technology which will benefit the United States fishing industry;

(vi) whether, and to what extent, the fishing vessels of such nation have traditionally engaged in fishing in such fishery;

(vii) whether, and to what extent, such nation is cooperating with the United States in, and making substantial contributions to, fishery research and the identification of fishery resources; and

(viii) such other matters as the Secretary of State, in cooperation with the Secretary, deems appropriate.

(2)(A) For the purposes of this paragraph—

(i) The term “certification” means a certification made by the Secretary that nationals of a foreign country, directly or indirectly, are conducting fishing operations or engaging in trade or taking which diminishes the effectiveness of the International Convention for the Regulation of Whaling. A certification under this section shall also be deemed a certification for the purposes of section 1978(a) of title 22.

(ii) The term “remedial period” means the 365-day period beginning on the date on which a certification is issued with respect to a foreign country.

(B) If the Secretary issues a certification with respect to any foreign country, then each allocation under paragraph (1) that—

(i) is in effect for that foreign country on the date of issuance; or

(ii) is not in effect on such date but would, without regard to this paragraph, be made to the foreign country within the remedial period;

shall be reduced by the Secretary of State, in consultation with the Secretary, by not less than 50 percent.

(C) The following apply for purposes of administering subparagraph (B) with respect to any foreign country:

(i) If on the date of certification, the foreign country has harvested a portion, but not all, of the quantity of fish specified under any allocation, the reduction under subparagraph (B) for that allocation shall be applied with respect to the quantity not harvested as of such date.

(ii) If the Secretary notified the Secretary of State that it is not likely that the certification of the foreign country will be terminated under section 1978(d) of title 22 before the close of the period for which an allocation is applicable or before the close of the remedial period (whichever close first occurs) the Secretary of State, in consultation with the Secretary, shall reallocate any portion of any reduction made under subparagraph (B) among one or more foreign countries for which no certification is in effect.

(iii) If the certification is terminated under such section 1978(d) of title 22 during the remedial period, the Secretary of State shall return to the foreign country that portion of any allocation reduced under subparagraph (B) that was not reallocated under clause (ii); unless the harvesting of the fish covered by the allocation is otherwise prohibited under this chapter.

(iv) The Secretary may refund or credit, by reason of reduction of any allocation under

this paragraph, any fee paid under section 1824 of this title.

(D) If the certification of a foreign country is not terminated under section 1978(d) of title 22 before the close of the last day of the remedial period, the Secretary of State—

(i) with respect to any allocation made to that country and in effect (as reduced under subparagraph (B)) on such last day, shall rescind, effective on and after the day after such last day, any unharvested portion of such allocation; and

(ii) may not thereafter make any allocation to that country under paragraph (1) until the certification is terminated.

(f) Reciprocity

Foreign fishing shall not be authorized for the fishing vessels of any foreign nation unless such nation satisfies the Secretary and the Secretary of State that such nation extends substantially the same fishing privileges to fishing vessels of the United States, if any, as the United States extends to foreign fishing vessels.

(g) Preliminary fishery management plans

The Secretary, when notified by the Secretary of State that any foreign nation has submitted an application under section 1824(b) of this title shall prepare a preliminary fishery management plan for any fishery covered by such application if the Secretary determines that no fishery management plan for that fishery will be prepared and implemented, pursuant to subchapter IV of this chapter, before March 1, 1977. To the extent practicable, each such plan—

(1) shall contain a preliminary description of the fishery and a preliminary determination as to—

(A) the optimum yield from such fishery;

(B) when appropriate, the capacity and extent to which United States fish processors will process that portion of such optimum yield that will be harvested by vessels of the United States; and

(C) the total allowable level of foreign fishing with respect to such fishery;

(2) shall require each foreign fishing vessel engaged or wishing to engage in such fishery to obtain a permit from the Secretary;

(3) shall require the submission of pertinent data to the Secretary, with respect to such fishery, as described in section 1853(a)(5) of this title; and

(4) may, to the extent necessary to prevent irreversible effects from overfishing, with respect to such fishery, contain conservation and management measures applicable to foreign fishing which—

(A) are determined to be necessary and appropriate for the conservation and management of such fishery,

(B) are consistent with the national standards, the other provisions of this chapter, and other applicable law, and

(C) are described in section 1853(b)(2), (3), (4), (5), and (7) of this title.

Each preliminary fishery management plan shall be in effect with respect to foreign fishing for which permits have been issued until a fish-

ery management plan is prepared and implemented, pursuant to subchapter IV of this chapter, with respect to such fishery. The Secretary may, in accordance with section 553 of title 5, also prepare and promulgate interim regulations with respect to any such preliminary plan. Such regulations shall be in effect until regulations implementing the applicable fishery management plan are promulgated pursuant to section 1855 of this title.

(h) Full observer coverage program

(1)(A) Except as provided in paragraph (2), the Secretary shall establish a program under which a United States observer will be stationed aboard each foreign fishing vessel while that vessel is engaged in fishing within the exclusive economic zone.

(B) The Secretary shall by regulation prescribe minimum health and safety standards that shall be maintained aboard each foreign fishing vessel with regard to the facilities provided for the quartering of, and the carrying out of observer functions by, United States observers.

(2) The requirement in paragraph (1) that a United States observer be placed aboard each foreign fishing vessel may be waived by the Secretary if he finds that—

(A) in a situation where a fleet of harvesting vessels transfers its catch taken within the exclusive economic zone to another vessel, aboard which is a United States observer, the stationing of United States observers on only a portion of the harvesting vessel fleet will provide a representative sampling of the by-catch of the fleet that is sufficient for purposes of determining whether the requirements of the applicable management plans for the by-catch species are being complied with;

(B) in a situation where the foreign fishing vessel is operating under a Pacific Insular Area fishing agreement, the Governor of the applicable Pacific Insular Area, in consultation with the Western Pacific Council, has established an observer coverage program or other monitoring program that the Secretary, in consultation with the Western Pacific Management Council, determines is adequate to monitor harvest, bycatch, and compliance with the laws of the United States by vessels fishing under the agreement;

(C) the time during which a foreign fishing vessel will engage in fishing within the exclusive economic zone will be of such short duration that the placing of a United States observer aboard the vessel would be impractical; or

(D) for reasons beyond the control of the Secretary, an observer is not available.

(3) Observers, while stationed aboard foreign fishing vessels, shall carry out such scientific, compliance monitoring, and other functions as the Secretary deems necessary or appropriate to carry out the purposes of this chapter; and shall cooperate in carrying out such other scientific programs relating to the conservation and management of living resources as the Secretary deems appropriate.

(4) In addition to any fee imposed under section 1824(b)(10) of this title and section 1980(e) of

title 22 with respect to foreign fishing for any year after 1980, the Secretary shall impose, with respect to each foreign fishing vessel for which a permit is issued under such section 1824 of this title, a surcharge in an amount sufficient to cover all the costs of providing a United States observer aboard that vessel. The failure to pay any surcharge imposed under this paragraph shall be treated by the Secretary as a failure to pay the permit fee for such vessel under section 1824(b)(10) of this title. All surcharges collected by the Secretary under this paragraph shall be deposited in the Foreign Fishing Observer Fund established by paragraph (5).

(5) There is established in the Treasury of the United States the Foreign Fishing Observer Fund. The Fund shall be available to the Secretary as a revolving fund for the purpose of carrying out this subsection. The Fund shall consist of the surcharges deposited into it as required under paragraph (4). All payments made by the Secretary to carry out this subsection shall be paid from the Fund, only to the extent and in the amounts provided for in advance in appropriation Acts. Sums in the Fund which are not currently needed for the purposes of this subsection shall be kept on deposit or invested in obligations of, or guaranteed by, the United States.

(6) If at any time the requirement set forth in paragraph (1) cannot be met because of insufficient appropriations, the Secretary shall, in implementing a supplementary observer program:

(A) certify as observers, for the purposes of this subsection, individuals who are citizens or nationals of the United States and who have the requisite education or experience to carry out the functions referred to in paragraph (3);

(B) establish standards of conduct for certified observers equivalent to those applicable to Federal personnel;

(C) establish a reasonable schedule of fees that certified observers or their agents shall be paid by the owners and operators of foreign fishing vessels for observer services; and

(D) monitor the performance of observers to ensure that it meets the purposes of this chapter.

(i) Recreational fishing

Notwithstanding any other provision of this subchapter, foreign fishing vessels which are not operated for profit may engage in recreational fishing within the exclusive economic zone and the waters within the boundaries of a State subject to obtaining such permits, paying such reasonable fees, and complying with such conditions and restrictions as the Secretary and the Governor of the State (or his designee) shall impose as being necessary or appropriate to insure that the fishing activity of such foreign vessels within such zone or waters, respectively, is consistent with all applicable Federal and State laws and any applicable fishery management plan implemented under section 1854 of this title. The Secretary shall consult with the Secretary of State and the Secretary of the Department in which the Coast Guard is operating in formulating the conditions and restrictions to be applied by the Secretary under the authority of this subsection.

(f) Nonrecognition

It is the sense of the Congress that the United States Government shall not recognize the claim of any foreign nation to an exclusive economic zone (or the equivalent) beyond such nation's territorial sea, to the extent that such sea is recognized by the United States, if such nation—

(1) fails to consider and take into account traditional fishing activity of fishing vessels of the United States;

(2) fails to recognize and accept that highly migratory species are to be managed by applicable international fishery agreements, whether or not such nation is a party to any such agreement; or

(3) imposes on fishing vessels of the United States any conditions or restrictions which are unrelated to fishery conservation and management.

(1) The Secretary of State, in cooperation with the Secretary, shall seek to secure an international agreement to establish standards and measures for bycatch reduction that are comparable to the standards and measures applicable to United States fishermen for such purposes in any fishery regulated pursuant to this chapter for which the Secretary, in consultation with the Secretary of State, determines that such an international agreement is necessary and appropriate.

(2) An international agreement negotiated under this subsection shall be—

(A) consistent with the policies and purposes of this chapter; and

Such agreements shall provide for—

“(1) the use of a sufficient number of vessels from which scientists of the United States and the foreign governments may observe and gather statistically reliable information; and

“(2) appropriate methods for sharing equally the costs associated with such activities.

§ 1824. Permits for foreign fishing

(a) In general

After February 28, 1977, no foreign fishing vessel shall engage in fishing within the exclusive economic zone, or for anadromous species or Continental Shelf fishery resources beyond such zone, unless such vessel has on board a valid permit issued under this section for such vessel.

(b) Applications and permits under governing international fishery agreements

(1) Eligibility; duration

Each foreign nation with which the United States has entered into a governing international fishery agreement shall submit an application to the Secretary of State each year for a permit for each of its fishing vessels that wishes to engage in fishing described in subsection (a) of this section. No permit issued under this section may be valid for longer than a year; and section 558(c) of title 5 does not apply to the renewal of any such permit.

(2) Forms

The Secretary, in consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, shall prescribe the forms for permit applications submitted under this subsection and for permits issued pursuant to any such application.

(3) Contents

Any application made under this subsection shall specify—

(A) the name and official number or other identification of each fishing vessel for which a permit is sought, together with the name and address of the owner thereof;

(B) the tonnage, hold capacity, speed, processing equipment, type and quantity of fishing gear, and such other pertinent information with respect to characteristics of each such vessel as the Secretary may require;

(C) each fishery in which each such vessel wishes to fish;

(D) the estimated amount of tonnage of fish which will be caught, taken, or harvested in each such fishery by each such vessel during the time the permit is in force;

(E) the amount or tonnage of United States harvested fish, if any, which each such vessel proposes to receive at sea from vessels of the United States;

(F) the ocean area in which, and the season or period during which, such fishing will be conducted; and

(G) all applicable vessel safety standards imposed by the foreign country, and shall include written certification that the vessel is in compliance with those standards;

and shall include any other pertinent information and material which the Secretary may require.

(4) Transmittal for action

Upon receipt of any application which complies with the requirements of paragraph (3), the Secretary of State shall publish a notice of receipt of the application in the Federal Register. Any such notice shall summarize the contents of the applications from each nation included therein with respect to the matters described in paragraph (3). The Secretary of State shall promptly transmit—

(A) such application, together with his comments and recommendations thereon, to the Secretary;

(B) a copy of the application to the Secretary of the department in which the Coast Guard is operating; and

(C) a copy or a summary of the application to the appropriate Council.

(5) Action by Council

After receiving a copy or summary of an application under paragraph (4)(C), the Council may prepare and submit to the Secretary such written comments on the application as it deems appropriate. Such comments shall be submitted within 45 days after the date on which the application is received by the Council and may include recommendations with respect to approval of the application and, if approval is recommended, with respect to appropriate conditions and restrictions thereon. Any interested person may submit comments to such Council with respect to any such application. The Council shall consider any such comments in formulating its submission to the Secretary.

(6) Approval

(A) After receipt of any application transmitted under paragraph (4)(A), the Secretary shall consult with the Secretary of State and, with respect to enforcement, with the Secretary of the department in which the Coast Guard is operating. The Secretary, after taking into consideration the views and recommendations of such Secretaries, and any comments submitted by any Council under paragraph (5), may approve, subject to subparagraph (B), the application, if he determines that the fishing described in the application will meet the requirements of this chapter, or he may disapprove all or any portion of the application.

(B)(i) In the case of any application which specifies that one or more foreign fishing vessels propose to receive at sea United States harvested fish from vessels of the United States, the Secretary may approve the application unless the Secretary determines, on the basis of the views, recommendations, and comments referred to in subparagraph (A) and other pertinent information, that United States fish processors have adequate capacity, and will utilize such capacity, to process all United States harvested fish from the fishery concerned.

(ii) The amount or tonnage of United States harvested fish which may be received at sea during any year by foreign fishing vessels under permits approved under this paragraph may not exceed that portion of the optimum yield of the fishery concerned which will not be utilized by United States fish processors.

(iii) In deciding whether to approve any application under this subparagraph, the Secretary may take into account, with respect to the foreign nation concerned, such other matters as the Secretary deems appropriate.

(7) Establishment of conditions and restrictions

The Secretary shall establish conditions and restrictions which shall be included in each permit issued pursuant to any application approved under paragraph (6) or subsection (d) of this section and which must be complied with by the owner or operator of the fishing vessel for which the permit is issued. Such condi-

tions and restrictions shall include the following:

(A) All of the requirements of any applicable fishery management plan, or preliminary fishery management plan, and any applicable Federal or State fishing regulations.

(B) The requirement that no permit may be used by any vessel other than the fishing vessel for which it is issued.

(C) The requirements described in section 1821(c)(1), (2), and (3) of this title.

(D) If the permit is issued other than pursuant to an application approved under paragraph (6)(B) or subsection (d) of this section, the restriction that the foreign fishing vessel may not receive at sea United States harvested fish from vessels of the United States.

(E) If the permit is issued pursuant to an application approved under paragraph (6)(B), the maximum amount or tonnage of United States harvested fish which may be received at sea from vessels of the United States.

(F) Any other condition and restriction related to fishery conservation and management which the Secretary prescribes as necessary and appropriate.

(8) Notice of approval

The Secretary shall promptly transmit a copy of each application approved under paragraph (6) and the conditions and restrictions established under paragraph (7) to—

(A) the Secretary of State for transmittal to the foreign nation involved;

(B) the Secretary of the department in which the Coast Guard is operating; and

(C) any Council which has authority over any fishery specified in such application.

(9) Disapproval of applications

If the Secretary does not approve any application submitted by a foreign nation under this subsection, he shall promptly inform the Secretary of State of the disapproval and his reasons therefore. The Secretary of State shall notify such foreign nation of the disapproval and the reasons therefor. Such foreign nation, after taking into consideration the reasons for disapproval, may submit a revised application under this subsection.

(10) Fees

(A) Fees shall be paid to the Secretary by the owner or operator of any foreign fishing vessel for which a permit has been issued pursuant to this section. The Secretary, in consultation with the Secretary of State, shall establish a schedule of reasonable fees that shall apply nondiscriminatorily to each foreign nation.

(B) Amounts collected by the Secretary under this paragraph shall be deposited in the general fund of the Treasury.

(11) Issuance of permits

If a foreign nation notifies the Secretary of State of its acceptance of the conditions and restrictions established by the Secretary under paragraph (7), the Secretary of State shall promptly transmit such notification to the Secretary. Upon payment of the applicable

fees established pursuant to paragraph (10), the Secretary shall thereupon issue to such foreign nation, through the Secretary of State, permits for the appropriate fishing vessels of that nation. Each permit shall contain a statement of all conditions and restrictions established under paragraph (7) which apply to the fishing vessel for which the permit is issued.

(c) Registration permits

The Secretary of State, in cooperation with the Secretary, shall issue annually a registration permit for each fishing vessel of a foreign nation which is a party to an international fishery agreement under which foreign fishing is authorized by section 1821(b) of this title and which wishes to engage in fishing described in subsection (a) of this section. Each such permit shall set forth the terms and conditions contained in the agreement that apply with respect to such fishing, and shall include the additional requirement that the owner or operator of the fishing vessel for which the permit is issued shall prominently display such permit in the wheelhouse of such vessel and show it, upon request, to any officer authorized to enforce the provisions of this chapter (as provided for in section 1861 of this title). The Secretary of State, after consultation with the Secretary and the Secretary of the department in which the Coast Guard is operating, shall prescribe the form and manner in which applications for registration permits may be made, and the forms of such permits. The Secretary of State may establish, require the payment of, and collect fees for registration permits; except that the level of such fees shall not exceed the administrative costs incurred by him in issuing such permits.

(d) Transshipment permits

(1) Authority to issue permits

The Secretary may issue a transshipment permit under this subsection which authorizes a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or fish products at sea from a point within the exclusive economic zone or, with the concurrence of a State, within the boundaries of that State, to a point outside the United States to any person who—

(A) submits an application which is approved by the Secretary under paragraph (3); and

(B) pays a fee imposed under paragraph (7).

(2) Transmittal

Upon receipt of an application for a permit under this subsection, the Secretary shall promptly transmit copies of the application to the Secretary of State, Secretary of the department in which the Coast Guard is operating, any appropriate Council, and any affected State.

(3) Approval of application

The Secretary may approve, in consultation with the appropriate Council or Marine Fisheries Commission, an application for a permit under this section if the Secretary determines that—

(A) the transportation of fish or fish products to be conducted under the permit, as de-

scribed in the application, will be in the interest of the United States and will meet the applicable requirements of this chapter;

(B) the applicant will comply with the requirements described in section 1821(c)(2) of this title with respect to activities authorized by any permit issued pursuant to the application;

(C) the applicant has established any bonds or financial assurances that may be required by the Secretary; and

(D) no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated to the Secretary an interest in performing the transportation at fair and reasonable rates.

(4) Whole or partial approval

The Secretary may approve all or any portion of an application under paragraph (3).

(5) Failure to approve application

If the Secretary does not approve any portion of an application submitted under paragraph (1), the Secretary shall promptly inform the applicant and specify the reasons therefor.

(6) Conditions and restrictions

The Secretary shall establish and include in each permit under this subsection conditions and restrictions, including those conditions and restrictions set forth in subsection (b)(7) of this section, which shall be complied with by the owner and operator of the vessel for which the permit is issued.

(7) Fees

The Secretary shall collect a fee for each permit issued under this subsection, in an amount adequate to recover the costs incurred by the United States in issuing the permit, except that the Secretary shall waive the fee for the permit if the foreign nation under which the vessel is registered does not collect a fee from a vessel of the United States engaged in similar activities in the waters of such foreign nation.

(e) Pacific Insular Areas

(1) Negotiation of Pacific Insular Area fishery agreements

The Secretary of State, with the concurrence of the Secretary and in consultation with any appropriate Council, may negotiate and enter into a Pacific Insular Area fishery agreement to authorize foreign fishing within the exclusive economic zone adjacent to a Pacific Insular Area—

(A) in the case of American Samoa, Guam, or the Northern Mariana Islands, at the request and with the concurrence of, and in consultation with, the Governor of the Pacific Insular Area to which such agreement applies; and

(B) in the case of a Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands, at the request of the Western Pacific Council.

(2) Agreement terms and conditions

A Pacific Insular Area fishery agreement—

(A) shall not be considered to supersede any governing international fishery agree-

ment currently in effect under this chapter, but shall provide an alternative basis for the conduct of foreign fishing within the exclusive economic zone adjacent to Pacific Insular Areas;

(B) shall be negotiated and implemented consistent only with the governing international fishery agreement provisions of this subchapter specifically made applicable in this subsection;

(C) may not be negotiated with a nation that is in violation of a governing international fishery agreement in effect under this chapter;

(D) shall not be entered into if it is determined by the Governor of the applicable Pacific Insular Area with respect to agreements initiated under paragraph (1)(A), or the Western Pacific Council with respect to agreements initiated under paragraph (1)(B), that such an agreement will adversely affect the fishing activities of the indigenous people of such Pacific Insular Area;

(E) shall be valid for a period not to exceed three years and shall only become effective according to the procedures in section 1823 of this title; and

(F) shall require the foreign nation and its fishing vessels to comply with the requirements of paragraphs (1), (2), (3) and (4)(A) of section 1821(c) of this title, section 1821(d) of this title, and section 1821(h) of this title.

(3) Permits for foreign fishing

(A) Application for permits for foreign fishing authorized under a Pacific Insular Areas fishing agreement shall be made, considered and approved or disapproved in accordance with paragraphs (3), (4), (5), (6), (7)(A) and (B), (8), and (9) of subsection (b) of this section, and shall include any conditions and restrictions established by the Secretary in consultation with the Secretary of State, the Secretary of the department in which the Coast Guard is operating, the Governor of the applicable Pacific Insular Area, and the appropriate Council.

(B) If a foreign nation notifies the Secretary of State of its acceptance of the requirements of this paragraph, paragraph (2)(F), and paragraph (5), including any conditions and restrictions established under subparagraph (A), the Secretary of State shall promptly transmit such notification to the Secretary. Upon receipt of any payment required under a Pacific Insular Area fishing agreement, the Secretary shall thereupon issue to such foreign nation, through the Secretary of State, permits for the appropriate fishing vessels of that nation. Each permit shall contain a statement of all of the requirements, conditions, and restrictions established under this subsection which apply to the fishing vessel for which the permit is issued.

(4) Marine conservation plans

(A) Prior to entering into a Pacific Insular Area fishery agreement, the Western Pacific Council and the appropriate Governor shall develop a 3-year marine conservation plan detailing uses for funds to be collected by the Secretary pursuant to such agreement. Such

plan shall be consistent with any applicable fishery management plan, identify conservation and management objectives (including criteria for determining when such objectives have been met), and prioritize planned marine conservation projects. Conservation and management objectives shall include, but not be limited to—

(i) Pacific Insular Area observer programs, or other monitoring programs, that the Secretary determines are adequate to monitor the harvest, bycatch, and compliance with the laws of the United States by foreign fishing vessels that fish under Pacific Insular Area fishing agreements;

(ii) conduct of marine and fisheries research, including development of systems for information collection, analysis, evaluation, and reporting;

(iii) conservation, education, and enforcement activities related to marine and coastal management, such as living marine resource assessments, habitat monitoring and coastal studies;

(iv) grants to the University of Hawaii for technical assistance projects by the Pacific Island Network, such as education and training in the development and implementation of sustainable marine resources development projects, scientific research, and conservation strategies; and

(v) western Pacific community-based demonstration projects under section 112(b) of the Sustainable Fisheries Act and other coastal improvement projects to foster and promote the management, conservation, and economic enhancement of the Pacific Insular Areas.

(B) In the case of American Samoa, Guam, and the Northern Mariana Islands, the appropriate Governor, with the concurrence of the Western Pacific Council, shall develop the marine conservation plan described in subparagraph (A) and submit such plan to the Secretary for approval. In the case of other Pacific Insular Areas, the Western Pacific Council shall develop and submit the marine conservation plan described in subparagraph (A) to the Secretary for approval.

(C) If a Governor or the Western Pacific Council intends to request that the Secretary of State renew a Pacific Insular Area fishery agreement, a subsequent 3-year plan shall be submitted to the Secretary for approval by the end of the second year of the existing 3-year plan.

(5) Reciprocal conditions

Except as expressly provided otherwise in this subsection, a Pacific Insular Area fishing agreement may include terms similar to the terms applicable to United States fishing vessels for access to similar fisheries in waters subject to the fisheries jurisdiction of another nation.

(6) Use of payments by American Samoa, Guam, Northern Mariana Islands

Any payments received by the Secretary under a Pacific Insular Area fishery agreement for American Samoa, Guam, or the

Northern Mariana Islands shall be deposited into the United States Treasury and then covered over to the Treasury of the Pacific Insular Area for which those funds were collected. Amounts deposited in the Treasury of a Pacific Insular Area shall be available, without appropriation or fiscal year limitation, to the Governor of the Pacific Insular Area—

(A) to carry out the purposes of this subsection;

(B) to compensate (i) the Western Pacific Council for mutually agreed upon administrative costs incurred relating to any Pacific Insular Area fishery agreement for such Pacific Insular Area, and (ii) the Secretary of State for mutually agreed upon travel expenses for no more than 2 Federal representatives incurred as a direct result of complying with paragraph (1)(A); and

(C) to implement a marine conservation plan developed and approved under paragraph (4).

(7) Western Pacific Sustainable Fisheries Fund

There is established in the United States Treasury a Western Pacific Sustainable Fisheries Fund into which any payments received by the Secretary under a Pacific Insular Area fishery agreement and any funds or contributions received in support of conservation and management objectives under a marine conservation plan for any Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands shall be deposited. The Western Pacific Sustainable Fisheries Fund shall be made available, without appropriation or fiscal year limitation, to the Secretary, who shall provide such funds only to—

(A) the Western Pacific Council for the purpose of carrying out the provisions of this subsection, including implementation of a marine conservation plan approved under paragraph (4);

(B) the Secretary of State for mutually agreed upon travel expenses for no more than 2 Federal representatives incurred as a direct result of complying with paragraph (1)(B); and

(C) the Western Pacific Council to meet conservation and management objectives in the State of Hawaii if monies remain in the Western Pacific Sustainable Fisheries Fund after the funding requirements of subparagraphs (A) and (B) have been satisfied.

Amounts deposited in such fund shall not diminish funding received by the Western Pacific Council for the purpose of carrying out other responsibilities under this chapter.

(8) Use of fines and penalties

In the case of violations occurring within the exclusive economic zone off American Samoa, Guam, or the Northern Mariana Islands, amounts received by the Secretary which are attributable to fines or penalties imposed under this chapter, including such sums collected from the forfeiture and disposition or sale of property seized subject to its authority, after payment of direct costs of the enforcement action to all entities involved in such action, shall be deposited into the Treas-

ury of the Pacific Insular Area adjacent to the exclusive economic zone in which the violation occurred, to be used for fisheries enforcement and for implementation of a marine conservation plan under paragraph (4). In the case of violations by foreign vessels occurring within the exclusive economic zones off Midway Atoll, Johnston Atoll, Kingman Reef, Palmyra Atoll, Jarvis, Howland, Baker, and Wake Islands, amounts received by the Secretary attributable to fines and penalties imposed under this chapter, shall be deposited into the Western Pacific Sustainable Fisheries Fund established under paragraph (7) of this subsection.

ing year. § 1825. Import prohibitions

(a) Determinations by Secretary of State

If the Secretary of State determines that—

(1) he has been unable, within a reasonable period of time, to conclude with any foreign nation an international fishery agreement allowing fishing vessels of the United States equitable access to fisheries over which that nation asserts exclusive fishery management authority, including fisheries for tuna species, as recognized by the United States, in accordance with fishing activities of such vessels, if any, and under terms not more restrictive than those established under sections 1821(c) and (d) and 1824(b)(7) and (10) of this title, because such nation has (A) refused to commence negotiations, or (B) failed to negotiate in good faith;

(2) any foreign nation is not allowing fishing vessels of the United States to engage in fishing for tuna species in accordance with an applicable international fishery agreement, whether or not such nation is a party thereto;

(3) any foreign nation is not complying with its obligations under any existing international fishery agreement concerning fishing by fishing vessels of the United States in any fishery over which that nation asserts exclusive fishery management authority; or

(4) any fishing vessel of the United States, while fishing in waters beyond any foreign nation's territorial sea, to the extent that such sea is recognized by the United States, is seized by any foreign nation—

(A) in violation of an applicable international fishery agreement;

(B) without authorization under an agreement between the United States and such nation; or

(C) as a consequence of a claim of jurisdiction which is not recognized by the United States;

he shall certify such determination to the Secretary of the Treasury.

(b) Prohibitions

Upon receipt of any certification from the Secretary of State under subsection (a) of this section, the Secretary of the Treasury shall immediately take such action as may be necessary and appropriate to prohibit the importation into the United States—

(1) of all fish and fish products from the fishery involved, if any; and

(2) upon recommendation of the Secretary of State, such other fish or fish products, from any fishery of the foreign nation concerned, which the Secretary of State finds to be appropriate to carry out the purposes of this section.

(c) Removal of prohibition

If the Secretary of State finds that the reasons for the imposition of any import prohibition under this section no longer prevail, the Secretary of State shall notify the Secretary of the Treasury, who shall promptly remove such import prohibition.

(d) Definitions

As used in this section—

(1) The term “fish” includes any highly migratory species.

(2) The term “fish products” means any article which is produced from or composed of (in whole or in part) any fish.

(Pub. L. 94-265, title II, §205, Apr. 13, 1976, 90 Stat. 345; Pub. L. 101-627, title I, §105(b)(1), Nov. 28, 1990, 104 Stat. 4440.)

EFFECTIVE DATE OF 1990 AMENDMENT

§ 1826. Large-scale driftnet fishing

(a) Short title

This section incorporates and expands upon provisions of the Driftnet Impact Monitoring, Assessment, and Control Act of 1987 and may be cited as the “Driftnet Act Amendments of 1990”.

(b) Findings

The Congress finds that—

(1) the continued widespread use of large-scale driftnets beyond the exclusive economic zone of any nation is a destructive fishing practice that poses a threat to living marine resources of the world’s oceans, including but not limited to the North and South Pacific Ocean and the Bering Sea;

(2) the use of large-scale driftnets is expanding into new regions of the world’s oceans, including the Atlantic Ocean and Caribbean Sea;

(3) there is a pressing need for detailed and reliable information on the number of seabirds, sea turtles, nontarget fish, and marine mammals that become entangled and die in actively fished large-scale driftnets and in large-scale driftnets that are lost, abandoned, or discarded;

(4) increased efforts, including reliable observer data and enforcement mechanisms, are needed to monitor, assess, control, and reduce the adverse impact of large-scale driftnet fishing on living marine resources;

(5) the nations of the world have agreed in the United Nations, through General Assembly Resolution Numbered 44-225, approved December 22, 1989, by the General Assembly, that a moratorium should be imposed by June 30, 1992, on the use of large-scale driftnets beyond the exclusive economic zone of any nation;

(6) the nations of the South Pacific have agreed to a moratorium on the use of large-scale driftnets in the South Pacific through the Convention for the Prohibition of Fishing with Long Driftnets in the South Pacific, which was agreed to in Wellington, New Zealand, on November 29, 1989; and

(7) increasing population pressures and new knowledge of the importance of living marine resources to the health of the global ecosystem demand that greater responsibility be exercised by persons fishing or developing new fisheries beyond the exclusive economic zone of any nation.

(c) Policy

It is declared to be the policy of the Congress in this section that the United States should—

(1) implement the moratorium called for by the United Nations General Assembly in Resolution Numbered 44-225;

(2) support the Tarawa Declaration and the Wellington Convention for the Prohibition of Fishing with Long Driftnets in the South Pacific; and

(3) secure a permanent ban on the use of destructive fishing practices, and in particular large-scale driftnets, by persons or vessels fishing beyond the exclusive economic zone of any nation.

(d) International agreements

The Secretary, through the Secretary of State and the Secretary of the department in which the Coast Guard is operating, shall seek to secure international agreements to implement immediately the findings, policy, and provisions of this section, and in particular an international ban on large-scale driftnet fishing. The Secretary, through the Secretary of State, shall include, in any agreement which addresses the taking of living marine resources of the United States, provisions to ensure that—

(1) each large-scale driftnet fishing vessel of a foreign nation that is party to the agreement, including vessels that may operate independently to develop new fishing areas, which operate beyond the exclusive economic zone of any nation, is included in such agreement;

(2) each large-scale driftnet fishing vessel of a foreign nation that is party to the agreement, which operates beyond the exclusive economic zone of any nation, is equipped with satellite transmitters which provide real-time position information accessible to the United States;

(3) statistically reliable monitoring by the United States is carried out, through the use of on-board observers or through dedicated platforms provided by foreign nations that are parties to the agreement, of all target and nontarget fish species, marine mammals, sea turtles, and sea birds entangled or killed by large-scale driftnets used by fishing vessels of foreign nations that are parties to the agreement;

(4) officials of the United States have the right to board and inspect for violations of the agreement any large-scale driftnet fishing vessels operating under the flag of a foreign nation that is party to the agreement at any time while such vessel is operating in designated areas beyond the exclusive economic zone of any nation;

(5) all catch landed or transshipped at sea by large-scale driftnet fishing vessels of a foreign nation that is a party to the agreement, and which are operated beyond the exclusive economic zone of any nation, is reliably monitored and documented;

(6) time and area restrictions are imposed on the use of large-scale driftnets in order to prevent interception of anadromous species;

(7) all large-scale driftnets used are constructed, insofar as feasible, with biodegradable materials which break into segments that do not represent a threat to living marine resources;

(8) all large-scale driftnets are marked at appropriate intervals in a manner that conclu-

sively identifies the vessel and flag nation responsible for each such driftnet;

(9) the taking of nontarget fish species, marine mammals, sea turtles, seabirds, and endangered species or other species protected by international agreements to which the United States is a party is minimized and does not pose a threat to existing fisheries or the long-term health of living marine resources; and

(10) definitive steps are agreed upon to ensure that parties to the agreement comply with the spirit of other international agreements and resolutions concerning the use of large-scale driftnets beyond the exclusive economic zone of any nation.

(e) Report

Not later than January 1, 1991, and every year thereafter until the purposes of this section are met, the Secretary, after consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a report—

(1) describing the steps taken to carry out the provisions of this section, particularly subsection (c) of this section;

(2) evaluating the progress of those efforts, the impacts on living marine resources, including available observer data, and specifying plans for further action;

(3) containing a list and description of any new fisheries developed by nations that conduct, or authorize their nationals to conduct, large-scale driftnet fishing beyond the exclusive economic zone of any nation; and

(4) containing a list of the nations that conduct, or authorize their nationals to conduct, large-scale driftnet fishing beyond the exclusive economic zone of any nation in a manner that diminishes the effectiveness of or is inconsistent with any international agreement governing large-scale driftnet fishing to which the United States is a party or otherwise subscribes.

(f) Certification

If at any time the Secretary, in consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, identifies any nation that warrants inclusion in the list described under subsection (e)(4) of this section, the Secretary shall certify that fact to the President. Such certification shall be deemed to be a certification for the purposes of section 1978(a) of title 22.

(g) Effect on sovereign rights

This section shall not serve or be construed to expand or diminish the sovereign rights of the United States, as stated by Presidential Proclamation Numbered 5030, dated March 10, 1983, and reflected in this chapter or other existing law.

(h) “Living marine resources” defined

As used in this section, the term “living marine resources” includes fish, marine mammals, sea turtles, and seabirds and other waterfowl.

HIGH SEAS DRIFTNET FISHERIES ENFORCEMENT;
CONGRESSIONAL STATEMENT OF FINDINGS AND POLICY

Pub. L. 102-582, §2, Nov. 2, 1992, 106 Stat. 4900, as amended by Pub. L. 104-208, div. A, title I, §101(a) [title II, §211(b)], Sept. 30, 1996, 110 Stat. 3009, 3009-41, provided that:

“(a) FINDINGS.—Congress makes the following findings:

“(1) Large-scale driftnet fishing on the high seas is highly destructive to the living marine resources and ocean ecosystems of the world’s oceans, including anadromous fish and other living marine resources of the United States.

“(2) The cumulative effects of large-scale driftnet fishing pose a significant threat to the marine ecosystem, and slow-reproducing species like marine mammals, sharks, and seabirds may require many years to recover.

“(3) Members of the international community have reviewed the best available scientific data on the impacts of large-scale pelagic driftnet fishing, and have failed to conclude that this practice has no significant adverse impacts which threaten the conservation and sustainable management of living marine resources.

“(4) The United Nations, via General Assembly Resolutions numbered 44-225, 45-197, and most recently 46-215 (adopted on December 20, 1991), has called for a worldwide moratorium on all high seas driftnet fishing by December 31, 1992, in all the world’s oceans, including enclosed seas and semi-enclosed seas.

“(5) The United Nations has commended the unilateral, regional, and international efforts undertaken by members of the international community and international organizations to implement and support the objectives of the General Assembly resolutions.

“(6) Operative paragraph (4) of United Nations General Assembly Resolution numbered 46-215 specifically ‘encourages all members of the international community to take measures individually and collectively to prevent large-scale pelagic driftnet fishing operations on the high seas of the world’s oceans and seas’.

“(7) The United States, in section 307(1)(M) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1857(1)(M)), has specifically

prohibited the practice of large-scale driftnet fishing by United States nationals and vessels both within the exclusive economic zone of the United States and beyond the exclusive economic zone of any nation.

“(8) The Senate, through Senate Resolution 396 of the One Hundredth Congress (approved on March 18, 1988), has called for a moratorium on fishing in the Central Bering Sea and the United States has taken concrete steps to implement such moratorium through international negotiations.

“(9) Despite the continued evidence of a decline in the fishery resources of the Bering Sea and the multi-year cooperative negotiations undertaken by the United States, the Russian Federation, Japan, and other concerned fishing nations, some nations refuse to agree to measures to reduce or eliminate unregulated fishing practices in the waters of the Bering Sea beyond the exclusive economic zones of the United States and the Russian Federation.

“(10) In order to ensure that the global moratorium on large-scale driftnet fishing called for in United Nations General Assembly Resolution numbered 46-215 takes effect by December 31, 1992, and that unregulated fishing practices in the waters of the Central Bering Sea are reduced or eliminated, the United States should take the actions described in this Act [see Short Title of 1992 Amendments note set out under section 1801 of this title] and encourage other nations to take similar action.

“(b) POLICY.—It is the stated policy of the United States to—

“(1) implement United Nations General Assembly Resolution numbered 46-215, approved unanimously on December 20, 1991, which calls for an immediate cessation to further expansion of large-scale driftnet fishing, a 50 percent reduction in existing large-scale driftnet fishing effort by June 30, 1992, and a global moratorium on the use of large-scale driftnets beyond the exclusive economic zone of any nation by December 31, 1992;

“(2) bring about a moratorium on fishing in the Central Bering Sea, or an international conservation and management agreement to which the United States and the Russian Federation are parties that regulates fishing in the Central Bering Sea; and

“(3) secure a permanent ban on the use of destructive fishing practices, and in particular large-scale driftnets, by persons or vessels fishing beyond the exclusive economic zone of any nation.”

§ 1826b. Duration of denial of port privileges and sanctions

Any denial of port privileges or sanction under section 1826a of this title with respect to a nation shall remain in effect until such time as the Secretary of Commerce certifies to the President and the Congress that such nation has terminated large-scale driftnet fishing or illegal, unreported, or unregulated fishing by its nationals and vessels beyond the exclusive economic zone of any nation.

(Pub. L. 102-582, title I, §102, Nov. 2, 1992, 106 Stat. 4903; Pub. L. 109-479, title IV, §403(b)(2), Jan. 12, 2007, 120 Stat. 3632.)

CODIFICATION

Section was enacted as part of the High Seas Driftnet Fisheries Enforcement Act, and not as part of the Magnuson-Stevens Fishery Conservation and Management Act which comprises this chapter.

AMENDMENTS

2007—Pub. L. 109-479 inserted “or illegal, unreported, or unregulated fishing” after “driftnet fishing”.

(2) Large-scale driftnet fishing**(A) In general**

Except as provided in subparagraph (B), the term “large-scale driftnet fishing” means a method of fishing in which a gillnet composed of a panel or panels of webbing, or a series of such gillnets, with a total length of two and one-half kilometers or more is placed in the water and allowed to drift with the currents and winds for the purpose of entangling fish in the webbing.

(B) Exception

Until January 1, 1994, the term “large-scale driftnet fishing” does not include the use in the northeast Atlantic Ocean of gillnets with a total length not to exceed five kilometers if the use is in accordance with regulations adopted by the European Community pursuant to the October 28, 1991, decision by the Council of Fisheries Ministers of the Community.

(3) Large-scale driftnet fishing vessel

The term “large-scale driftnet fishing vessel” means any vessel which is—

(A) used for, equipped to be used for, or of a type which is normally used for large-scale driftnet fishing; or

(B) used for aiding or assisting one or more vessels at sea in the performance of large-scale driftnet fishing, including preparation, supply, storage, refrigeration, transportation, or processing.

(a) Identification

The Secretary shall identify, and list in the report under section 1826h of this title, a nation if fishing vessels of that nation are engaged, or have been engaged at any point during the preceding 2 years, in illegal, unreported, or unregulated fishing—

(1) the relevant international fishery management organization has failed to implement

effective measures to end the illegal, unreported, or unregulated fishing activity by vessels of that nation or the nation is not a party to, or does not maintain cooperating status with, such organization; or

(2) where no international fishery management organization exists with a mandate to regulate the fishing activity in question.

(b) Notification

An identification under subsection (a) or section 1826k(a) of this title is deemed to be an identification under section 1826a(b)(1)(A) of this title, and the Secretary shall notify the President and that nation of such identification.

(c) Consultation

No later than 60 days after submitting a report to Congress under section 1826h of this title, the Secretary, acting through the Secretary of State, shall—

(3) notify any relevant international fishery management organization of the actions taken by the United States under this section.

(d) IUU certification procedure

(1) Certification

The Secretary shall establish a procedure, consistent with the provisions of subchapter II of chapter 5 of title 5, for determining if a nation identified under subsection (a) and listed in the report under section 1826h of this title has taken appropriate corrective action with respect to the offending activities of its fishing vessels identified in the report under section 1826h of this title. The certification procedure shall provide for notice and an opportunity for comment by any such nation. The Secretary shall determine, on the basis of the procedure, and certify to the Congress no later than 90 days after the date on which the Secretary promulgates a final rule containing the procedure, and biennially thereafter in the report under section 1826h of this title—

(A) whether the government of each nation identified under subsection (a) has provided documentary evidence that it has taken corrective action with respect to the offending activities of its fishing vessels identified in the report; or

(B) whether the relevant international fishery management organization has implemented measures that are effective in ending the illegal, unreported, or unregulated fishing activity by vessels of that nation.

(2) Alternative procedure

The Secretary may establish a procedure for certification, on a shipment-by-shipment, shipper-by-shipper, or other basis of fish or fish products from a vessel of a harvesting nation not certified under paragraph (1) if the Secretary determines that—

(A) the vessel has not engaged in illegal, unreported, or unregulated fishing under an

international fishery management agreement to which the United States is a party; or

(B) the vessel is not identified by an international fishery management organization as participating in illegal, unreported, or unregulated fishing activities.

(3) Effect of certification

(A) In general

The provisions of section 1826a(a) and section 1826a(b)(3) and (4) of this title—

(i) shall apply to any nation identified under subsection (a) that has not been certified by the Secretary under this subsection, or for which the Secretary has issued a negative certification under this subsection; but

(ii) shall not apply to any nation identified under subsection (a) for which the Secretary has issued a positive certification under this subsection.

(B) Exceptions

Subparagraph (A)(i) does not apply—

(i) to the extent that such provisions would apply to sport fishing equipment or to fish or fish products not managed under the applicable international fishery agreement; or

(ii) if there is no applicable international fishery agreement, to the extent that such provisions would apply to fish or fish products caught by vessels not engaged in illegal, unreported, or unregulated fishing.

(e) Illegal, unreported, or unregulated fishing defined

(1) In general

In sections 1826d to 1826k of this title the term “illegal, unreported, or unregulated fishing” has the meaning established under paragraph (2).

(2) Secretary to define term within legislative guidelines

Within 3 months after January 12, 2007, the Secretary shall publish a definition of the term “illegal, unreported, or unregulated fishing” for purposes of sections 1826d to 1826k of this title.

(3) Guidelines

The Secretary shall include in the definition, at a minimum—

(A) fishing activities that violate conservation and management measures required under an international fishery management agreement to which the United States is a party, including catch limits or quotas, capacity restrictions, bycatch reduction requirements, and shark conservation measures;

(B) overfishing of fish stocks shared by the United States, for which there are no applicable international conservation or management measures or in areas with no applicable international fishery management organization or agreement, that has adverse impacts on such stocks; and

(C) fishing activity that has an adverse impact on seamounts, hydrothermal vents, and

cold water corals located beyond national jurisdiction, for which there are no applicable conservation or management measures or in areas with no applicable international fishery management organization or agreement.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary for fiscal years 2007 through 2013 such sums as are necessary to carry out this section.

(B) the relevant international organization for the conservation and protection of such resources or the relevant international or regional fishery organization has failed to implement effective measures to end or reduce such bycatch, or the nation is not a party to, or does not maintain cooperating status with, such organization; and

¹ So in original. The semicolon probably should be a dash.

(C) the nation has not adopted a regulatory program governing such fishing practices designed to end or reduce such bycatch that is comparable to that of the United States, taking into account different conditions; and

(2) a nation if—

(A) fishing vessels of that nation are engaged, or have been engaged during the preceding calendar year, in fishing activities or practices in waters beyond any national jurisdiction that target or incidentally catch sharks; and

The Secretary shall establish a procedure for certification, on a shipment-by-shipment, shipper-by-shipper, or other basis of fish or fish products from a vessel of a harvesting nation not certified under paragraph (3) if the Secretary determines that such imports were harvested by practices that do not result in bycatch of a protected marine species, or were harvested by practices that—

(A) are comparable to those of the United States, taking into account different conditions, and which, in the case of pelagic longline fishing, includes mandatory use of circle hooks, careful handling and release equipment, and training and observer programs; and

(B) include the gathering of species specific data that can be used to support international and regional stock assessments and conservation efforts for protected living marine resources.

(5) Effect of certification

The provisions of section 1826a(a) and section 1826a(b)(3) and (4) of this title (except to the extent that such provisions apply to sport fishing equipment or fish or fish products not caught by the vessels engaged in illegal, unreported, or unregulated fishing) shall apply to any nation identified under subsection (a) that has not been certified by the Secretary under this subsection, or for which the Secretary has issued a negative certification under this subsection, but shall not apply to any nation identified under subsection (a) for which the Secretary has issued a positive certification under this subsection.

(d) International cooperation and assistance

To the greatest extent possible consistent with existing authority and the availability of funds, the Secretary shall—

(1) provide appropriate assistance to nations identified by the Secretary under subsection (a) and international organizations of which those nations are members to assist those nations in qualifying for certification under subsection (c);

(2) undertake, where appropriate, cooperative research activities on species statistics and improved harvesting techniques, with those nations or organizations;

(3) encourage and facilitate the transfer of appropriate technology to those nations or or-

ganizations to assist those nations in qualifying for certification under subsection (c); and (4) provide assistance to those nations or organizations in designing and implementing appropriate fish harvesting plans.

(e) Protected living marine resource defined

In this section the term “protected living marine resource”—

(1) means non-target fish, sea turtles, or marine mammals that are protected under United States law or international agreement, including the Marine Mammal Protection Act [16 U.S.C. 1361 et seq.], the Endangered Species Act [16 U.S.C. 1531 et seq.], the Shark Finning Prohibition Act, and the Convention on International Trade in Endangered Species of Wild Flora and Fauna; but

(2) does not include species, except sharks, managed under the Magnuson-Stevens Fishery Conservation and Management Act [16 U.S.C. 1801 et seq.], the Atlantic Tunas Convention Act [16 U.S.C. 971 et seq.], or any international fishery management agreement.

MANAGEMENT PROGRAM

§ 1851. National standards for fishery conservation and management

(a) In general

Any fishery management plan prepared, and any regulation promulgated to implement any such plan, pursuant to this subchapter shall be consistent with the following national standards for fishery conservation and management:

(1) Conservation and management measures shall prevent overfishing while achieving, on a continuing basis, the optimum yield from each fishery for the United States fishing industry.

(2) Conservation and management measures shall be based upon the best scientific information available.

(3) To the extent practicable, an individual stock of fish shall be managed as a unit throughout its range, and interrelated stocks of fish shall be managed as a unit or in close coordination.

(4) Conservation and management measures shall not discriminate between residents of different States. If it becomes necessary to allocate or assign fishing privileges among various United States fishermen, such allocation shall be (A) fair and equitable to all such fishermen; (B) reasonably calculated to promote conservation; and (C) carried out in such manner that no particular individual, corporation, or other entity acquires an excessive share of such privileges.

(5) Conservation and management measures shall, where practicable, consider efficiency in the utilization of fishery resources; except that no such measure shall have economic allocation as its sole purpose.

(6) Conservation and management measures shall take into account and allow for variations among, and contingencies in, fisheries, fishery resources, and catches.

(7) Conservation and management measures shall, where practicable, minimize costs and avoid unnecessary duplication.

(8) Conservation and management measures shall, consistent with the conservation requirements of this chapter (including the prevention of overfishing and rebuilding of overfished stocks), take into account the importance of fishery resources to fishing communities by utilizing economic and social data that meet the requirements of paragraph (2), in order to (A) provide for the sustained participation of such communities, and (B) to the extent practicable, minimize adverse economic impacts on such communities.

(9) Conservation and management measures shall, to the extent practicable, (A) minimize bycatch and (B) to the extent bycatch cannot be avoided, minimize the mortality of such bycatch.

(10) Conservation and management measures shall, to the extent practicable, promote the safety of human life at sea.

(b) Guidelines

The Secretary shall establish advisory guidelines (which shall not have the force and effect of law), based on the national standards, to as-

measures, in accordance with the Magnuson-Stevens Act (16 U.S.C. 1801 et seq.) as it considers necessary to ensure that this Act does not diminish the effectiveness of fishery management in the BSAI or the Gulf of Alaska Pacific cod fishery.

“(b) LIMITATIONS.—

“(1) Notwithstanding the authority provided to the Council under this section, the Council is prohibited from altering or otherwise modifying—

“(A) the methodology established under section 3 for allocating the BSAI Pacific cod total allowable catch and BSAI Pacific cod prohibited species catch allocation to a single fishery cooperative approved under this Act; or

GULF OF ALASKA ROCKFISH DEMONSTRATION PROGRAM

Pub. L. 108-199, div. B, title VIII, § 802, Jan. 23, 2004, 118 Stat. 110, as amended by Pub. L. 109-479, title II, § 218, Jan. 12, 2007, 120 Stat. 3621, provided that: “The Secretary of Commerce, in consultation with the North Pacific Fishery Management Council, shall establish a pilot program that recognizes the historic participation of fishing vessels (1996 to 2002, best 5 of 7 years) and historic participation of fish processors (1996 to 2000, best 4 of 5 years) for Pacific ocean perch, northern rockfish, and pelagic shelf rockfish harvested in Central Gulf of Alaska. Pub. L. 106-554, § 1(a)(4) [div. A, § 209], Dec. 21, 2000, 114 Stat. 2763, 2763A-176, provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) the western population of Steller sea lions has substantially declined over the last 25 years.

“(2) scientists should closely research and analyze all possible factors relating to such decline, including the possible interactions between commercial fishing and Steller sea lions and the localized depletion hypothesis;

“(3) the authority to manage commercial fisheries in Federal waters lies with the regional councils and the Secretary of Commerce (hereafter in this section ‘Secretary’) pursuant to the Magnuson-Stevens Fishery Conservation and Management Act [16 U.S.C. 1801

et seq.] (hereafter in this section ‘Magnuson-Stevens Act’); and

“(4) the Secretary of Commerce shall comply with the Magnuson-Stevens Act when using fishery management plans and regulations to implement the decisions made pursuant to findings under the Endangered Species Act [of 1973, 16 U.S.C. 1531 et seq.], and shall utilize the processes and procedures of the regional fishery management councils as required by the Magnuson-Stevens Act.

“(b) INDEPENDENT SCIENTIFIC REVIEW.—The North Pacific Fishery Management Council (hereafter in this section ‘North Pacific Council[.]’) shall utilize the expertise of the National Academy of Sciences to conduct an independent scientific review of the November 30, 2000 Biological Opinion for the Bering Sea/Aleutian Islands and Gulf of Alaska groundfish fisheries (hereafter in this section ‘Biological Opinion’), its underlying hypothesis, and the Reasonable and Prudent Alternatives (hereafter in this section ‘Alternatives’) contained therein. The Secretary shall cooperate with the independent scientific review, and the National Academy of Sciences is requested to give its highest priority to this review.

“(c) PREPARATION OF FISHERY MANAGEMENT PLANS AND REGULATIONS TO IMPLEMENT PROTECTIVE MEASURES IN THE NOVEMBER 30, 2000 BIOLOGICAL OPINION.—

“(1) The Secretary of Commerce shall submit to the North Pacific Council proposed conservation and management measures to implement the Alternatives contained in the November 30, 2000 Biological Opinion for the Bering Sea/Aleutian Islands and Gulf of Alaska groundfish fisheries. The North Pacific Council shall prepare and transmit to the Secretary a fishery management plan amendment or amendments to implement such Alternatives that are consistent with the Magnuson-Stevens Act (including requirements in such Act relating to best available science, bycatch reduction, impacting on fishing communities, the safety of life at sea, and public comment and hearings.)

“(2) The Bering Sea/Aleutian Islands and Gulf of Alaska groundfish fisheries shall be managed in a manner consistent with the Alternatives contained in the Biological Opinion, except as otherwise provided in this section. The Alternatives shall become fully effective no later than January 1, 2002, as revised if necessary and appropriate based on the independent scientific review referred to in subsection (b) and other new information, and shall be phased in in 2001 as described in paragraph (3).

“(3) The 2001 Bering Sea/Aleutian Islands and Gulf of Alaska groundfish fisheries shall be managed in accordance with the fishery management plan and Federal regulations in effect for such fisheries prior to July 15, 2000, including—

“(5) The harvest reduction requirement (‘Global Control Rule’) shall take effect immediately in any 2001 groundfish fishery in which it applies, but shall not cause a reduction in the total allowable catch of any fishery of more than 10 percent.

“(6) In enforcing regulations for the 2001 fisheries, the Secretary, upon recommendation of the North Pacific Council, may open critical habitat where needed, adjust seasonal catch levels, and take other measures as needed to ensure that harvest levels are sufficient to provide income from these fisheries for small boats and Alaskan on-shore processors that is no less than in 1999.

“(7) The regulations that are promulgated pursuant to paragraph (4) shall not be modified in any way other than upon recommendation of the North Pacific Council, before March 15, 2001.

“(g) VESSEL REBUILDING AND REPLACEMENT.—

“(1) IN GENERAL.—

“(A) REBUILD OR REPLACE.—Notwithstanding any limitation to the contrary on replacing, rebuilding, or lengthening vessels or transferring permits or licenses to a replacement vessel contained in sections 679.2 and 679.4 of title 50, Code of Federal Regulations, as in effect on the date of enactment of the Coast Guard Authorization Act of 2010 [Oct. 15,

2010] and except as provided in paragraph (4), the owner of a vessel eligible under subsection (a), (b), (c), (d), or (e), in order to improve vessel safety and operational efficiencies (including fuel efficiency), may rebuild or replace that vessel (including fuel efficiency) with a vessel documented with a fishery endorsement under section 12113 of title 46, United States Code.

“(B) SAME REQUIREMENTS.—The rebuilt or replacement vessel shall be eligible in the same manner and subject to the same restrictions and limitations under such subsection as the vessel being rebuilt or replaced.

“(C) TRANSFER OF PERMITS AND LICENSES.—Each fishing permit and license held by the owner of a vessel or vessels to be rebuilt or replaced under subparagraph (A) shall be transferred to the rebuilt or replacement vessel or its owner, as necessary to permit such rebuilt or replacement vessel to operate in the same manner as the vessel prior to the rebuilding or the vessel it replaced, respectively.

“(2) RECOMMENDATIONS OF NORTH PACIFIC FISHERY MANAGEMENT COUNCIL.—The North Pacific Fishery Management Council may recommend for approval by the Secretary such conservation and management measures, including size limits and measures to control fishing capacity, in accordance with the Magnuson-Stevens Act [16 U.S.C. 1801 et seq.] as it considers necessary to ensure that this subsection does not diminish the effectiveness of fishery management plans of the Bering Sea and Aleutian Islands Management Area or the Gulf of Alaska.

“(3) SPECIAL RULE FOR REPLACEMENT OF CERTAIN VESSELS.—

“(A) IN GENERAL.—Notwithstanding the requirements of subsections (b)(2), (c)(1), and (c)(2) of section 12113 of title 46, United States Code, a vessel that is eligible under subsection (a), (b), (c), or (e) and that qualifies to be documented with a fishery endorsement pursuant to section 213(g) may be replaced with a replacement vessel under paragraph (1) if the vessel that is replaced is validly documented with a fishery endorsement pursuant to section 213(g) before the replacement vessel is documented with a fishery endorsement under section 12113 of title 46, United States Code.

“(B) APPLICABILITY.—A replacement vessel under subparagraph (A) and its owner and mortgagee are subject to the same limitations under section 213(g) that are applicable to the vessel that has been replaced and its owner and mortgagee.

“(4) SPECIAL RULES FOR CERTAIN CATCHER VESSELS.—

“(A) IN GENERAL.—A replacement for a covered vessel described in subparagraph (B) is prohibited from harvesting fish in any fishery (except for the Pacific whiting fishery) managed under the authority of any Regional Fishery Management Council (other than the North Pacific Fishery Management Council) established under section 302(a) of the Magnuson-Stevens Act [16 U.S.C. 1852(a)].

“(B) COVERED VESSELS.—A covered vessel referred to in subparagraph (A) is—

“(i) a vessel eligible under subsection (a), (b), or (c) that is replaced under paragraph (1); or

“(ii) a vessel eligible under subsection (a), (b), or (c) that is rebuilt to increase its registered length, gross tonnage, or shaft horsepower.

“(5) LIMITATION ON FISHERY ENDORSEMENTS.—Any vessel that is replaced under this subsection shall thereafter not be eligible for a fishery endorsement under section 12113 of title 46, United States Code, unless that vessel is also a replacement vessel described in paragraph (1).

“(6) GULF OF ALASKA LIMITATION.—Notwithstanding paragraph (1), the Secretary shall prohibit from participation in the groundfish fisheries of the Gulf of Alaska any vessel that is rebuilt or replaced under this subsection and that exceeds the maximum length overall specified on the license that authorizes fishing for groundfish pursuant to the license limitation

program under part 679 of title 50, Code of Federal Regulations, as in effect on the date of enactment of the Coast Guard Authorization Act of 2010 [Oct. 15, 2010].

“(7) AUTHORITY OF PACIFIC COUNCIL.—Nothing in this section shall be construed to diminish or otherwise affect the authority of the Pacific Council to recommend to the Secretary conservation and management measures to protect fisheries under its jurisdiction (including the Pacific whiting fishery) and participants in such fisheries from adverse impacts caused by this Act.

“(h) ELIGIBILITY DURING IMPLEMENTATION.—In the event the Secretary is unable to make a final determination about the eligibility of a vessel under subsection (b)(8) or subsection (e)(21) before January 1, 1999, or a vessel or shoreside processor under subsection (a), subsection (c)(21), or subsection (f) before January 1, 2000, such vessel or shoreside processor, upon the filing of an application for eligibility, shall be eligible to participate in the directed pollock fishery pending final determination by the Secretary with respect to such vessel or shoreside processor.

“(i) ELIGIBILITY NOT A RIGHT.—Eligibility under this section shall not be construed—

“(1) to confer any right of compensation, monetary or otherwise, to the owner of any catcher vessel, catcher/processor, mothership, or shoreside processor if such eligibility is revoked or limited in any way, including through the revocation or limitation of a fishery endorsement or any federal permit or license;

“(2) to create any right, title, or interest in or to any fish in any fishery; or

“(3) to waive any provision of law otherwise applicable to such catcher vessel, catcher/processor, mothership, or shoreside processor.

“SEC. 209. LIST OF INELIGIBLE VESSELS.

“Effective December 31, 1998, the following vessels shall be permanently ineligible for fishery endorsements, and any claims (including relating to catch history) associated with such vessels that could qualify any owners of such vessels for any present or future limited access system permit in any fishery within the exclusive economic zone of the United States (including a vessel moratorium permit or license limitation program permit in fisheries under the authority of the North Pacific Council) are hereby extinguished:

“(1) AMERICAN EMPRESS (United States official number 942347);

“(2) PACIFIC SCOUT (United States official number 934772);

“(3) PACIFIC EXPLORER (United States official number 942592);

“(4) PACIFIC NAVIGATOR (United States official number 592204);

“(5) VICTORIA ANN (United States official number 592207);

“(6) ELIZABETH ANN (United States official number 534721);

“(7) CHRISTINA ANN (United States official number 653045);

“(8) REBECCA ANN (United States official number 592205); and

“(9) BROWNS POINT (United States official number 587440).

“SEC. 210. FISHERY COOPERATIVE LIMITATIONS.

“(a) PUBLIC NOTICE.—(1) Any contract implementing a fishery cooperative under section 1 of the Act of June 25, 1934 (15 U.S.C. 521) in the directed pollock fishery and any material modifications to any such contract shall be filed not less than 30 days prior to the start of fishing under the contract with the North Pacific Council and with the Secretary, together with a copy of a letter from a party to the contract requesting a business review letter on the fishery cooperative from the Department of Justice and any response to such request. Notwithstanding section 402 of the Magnuson-Stevens Act (16 U.S.C. 1881a) or any other provision of law, but taking into account the interest of parties to

any such contract in protecting the confidentiality of proprietary information, the North Pacific Council and Secretary shall—

“(A) make available to the public such information about the contract, contract modifications, or fishery cooperative the North Pacific Council and Secretary deem appropriate, which at a minimum shall include a list of the parties to the contract, a list of the vessels involved, and the amount of pollock and other fish to be harvested by each party to such contract; and

“(B) make available to the public in such manner as the North Pacific Council and Secretary deem appropriate information about the harvest by vessels under a fishery cooperative of all species (including bycatch) in the directed pollock fishery on a vessel-by-vessel basis.

“(b) CATCHER VESSELS ONSHORE.—

“(1) CATCHER VESSEL COOPERATIVES.—Effective January 1, 2000, upon the filing of a contract implementing a fishery cooperative under subsection (a) which—

“(A) is signed by the owners of 80 percent or more of the qualified catcher vessels that delivered pollock for processing by a shoreside processor in the directed pollock fishery in the year prior to the year in which the fishery cooperative will be in effect; and

“(B) specifies, except as provided in paragraph (6), that such catcher vessels will deliver pollock in the directed pollock fishery only to such shoreside processor during the year in which the fishery cooperative will be in effect and that such shoreside processor has agreed to process such pollock,

the Secretary shall allow only such catcher vessels (and catcher vessels whose owners voluntarily participate pursuant to paragraph (2)) to harvest the aggregate percentage of the directed fishing allowance under section 206(b)(1) in the year in which the fishery cooperative will be in effect that is equivalent to the aggregate total amount of pollock harvested by such catcher vessels (and by such catcher vessels whose owners voluntarily participate pursuant to paragraph (2)) in the directed pollock fishery for processing by the inshore component during 1995, 1996, and 1997 relative to the aggregate total amount of pollock harvested in the directed pollock fishery for processing by the inshore component during such years and shall prevent such catcher vessels (and catcher vessels whose owners voluntarily participate pursuant to paragraph (2)) from harvesting in aggregate in excess of such percentage of such directed fishing allowance.

“(2) VOLUNTARY PARTICIPATION.—Any contract implementing a fishery cooperative under paragraph (1) must allow the owners of other qualified catcher vessels to enter into such contract after it is filed and before the calendar year in which fishing will begin under the same terms and conditions as the owners of the qualified catcher vessels who entered into such contract upon filing.

“(3) QUALIFIED CATCHER VESSEL.—For the purposes of this subsection, a catcher vessel shall be considered a ‘qualified catcher vessel’ if, during the year prior to the year in which the fishery cooperative will be in effect, it delivered more pollock to the shoreside processor to which it will deliver pollock under the fishery cooperative in paragraph (1) than to any other shoreside processor.

“(4) CONSIDERATION OF CERTAIN VESSELS.—Any contract implementing a fishery cooperative under paragraph (1) which has been entered into by the owner of a qualified catcher vessel eligible under section 208(a) that harvested pollock for processing by catcher/processors or motherships in the directed pollock fishery during 1995, 1996, and 1997 shall, to the extent practicable, provide fair and equitable terms and conditions for the owner of such qualified catcher vessel.

“(5) OPEN ACCESS.—A catcher vessel eligible under section 208(a) the catch history of which has not been attributed to a fishery cooperative under paragraph

(1) may be used to deliver pollock harvested by such vessel from the directed fishing allowance under section 206(b)(1) (other than pollock reserved under paragraph (1) for a fishery cooperative) to any of the shoreside processors eligible under section 208(f). A catcher vessel eligible under section 208(a) the catch history of which has been attributed to a fishery cooperative under paragraph (1) during any calendar year may not harvest any pollock apportioned under section 206(b)(1) in such calendar year other than the pollock reserved under paragraph (1) for such fishery cooperative.

“(6) TRANSFER OF COOPERATIVE HARVEST.—A contract implementing a fishery cooperative under paragraph (1) may, notwithstanding the other provisions of this subsection, provide for up to 10 percent of the pollock harvested under such cooperative to be processed by a shoreside processor eligible under section 208(f) other than the shoreside processor to which pollock will be delivered under paragraph (1).

“(7) FISHERY COOPERATIVE EXIT PROVISIONS.—

“(A) FISHING ALLOWANCE DETERMINATION.—For purposes of determining the aggregate percentage of directed fishing allowances under paragraph (1), when a catcher vessel is removed from the directed pollock fishery, the fishery allowance for pollock for the vessel being removed—

“(i) shall be based on the catch history determination for the vessel made pursuant to section 679.62 of title 50, Code of Federal Regulations, as in effect on the date of enactment of the Coast Guard Authorization Act of 2010 [Oct. 15, 2010]; and

“(ii) shall be assigned, for all purposes under this title, in the manner specified by the owner of the vessel being removed to any other catcher vessel or among other catcher vessels participating in the fishery cooperative if such vessel or vessels remain in the fishery cooperative for at least one year after the date on which the vessel being removed leaves the directed pollock fishery.

“(B) ELIGIBILITY FOR FISHERY ENDORSEMENT.—Except as provided in subparagraph (C), a vessel that is removed pursuant to this paragraph shall be permanently ineligible for a fishery endorsement, and any claim (including relating to catch history) associated with such vessel that could qualify any owner of such vessel for any permit to participate in any fishery within the exclusive economic zone of the United States shall be extinguished, unless such removed vessel is thereafter designated to replace a vessel to be removed pursuant to this paragraph.

“(C) LIMITATIONS ON STATUTORY CONSTRUCTION.—Nothing in this paragraph shall be construed—

“(i) to make the vessels AJ (United States official number 905625), DONA MARTITA (United States official number 651751), NORDIC EXPLORER (United States official number 678234), and PROVIDIAN (United States official number 1062183) ineligible for a fishery endorsement or any permit necessary to participate in any fishery under the authority of the New England Fishery Management Council or the Mid-Atlantic Fishery Management Council established, respectively, under subparagraphs (A) and (B) of section 302(a)(1) of the Magnuson-Stevens Act [16 U.S.C. 1852(a)(1)]; or

“(ii) to allow the vessels referred to in clause (i) to participate in any fishery under the authority of the Councils referred to in clause (i) in any manner that is not consistent with the fishery management plan for the fishery developed by the Councils under section 303 of the Magnuson-Stevens Act [16 U.S.C. 1853].

“(c) CATCHER VESSELS TO CATCHER/PROCESSORS.—Effective January 1, 1999, not less than 8.5 percent of the directed fishing allowance under section 206(b)(2) shall be available for harvest only by the catcher vessels eligible under section 208(b). The owners of such catcher

vessels may participate in a fishery cooperative with the owners of the catcher/processors eligible under paragraphs (1) through (20) of the section 208(e). The owners of such catcher vessels may participate in a fishery cooperative that will be in effect during 1999 only if the contract implementing such cooperative establishes penalties to prevent such vessels from exceeding in 1999 the traditional levels harvested by such vessels in all other fisheries in the exclusive economic zone of the United States.

“(d) CATCHER VESSELS TO MOTHERSHIPS.—

“(1) PROCESSING.—Effective January 1, 2000, the authority in section 1 of the Act of June 25, 1934 (48 Stat. 1213 and 1214; 15 U.S.C. 521 et seq.) shall extend to processing by motherships eligible under section 208(d) solely for the purposes of forming or participating in a fishery cooperative in the directed pollock fishery upon the filing of a contract to implement a fishery cooperative under subsection (a) which has been entered into by the owners of 80 percent or more of the catcher vessels eligible under section 208(c) for the duration of such contract, provided that such owners agree to the terms of the fishery cooperative involving processing by the motherships.

“(2) VOLUNTARY PARTICIPATION.—Any contract implementing a fishery cooperative described in paragraph (1) must allow the owners of any other catcher vessels eligible under section 208(c) to enter such contract after it is filed and before the calendar year in which fishing will begin under the same terms and conditions as the owners of the catcher vessels who entered into such contract upon filing.

“(e) EXCESSIVE SHARES.—

“(1) HARVESTING.—No particular individual, corporation, or other entity may harvest, through a fishery cooperative or otherwise, a total of more than 17.5 percent of the pollock available to be harvested in the directed pollock fishery.

“(2) PROCESSING.—Under the authority of section 301(a)(4) of the Magnuson-Stevens Act (16 U.S.C. 1851(a)(4)), the North Pacific Council is directed to recommend for approval by the Secretary conservation and management measures to prevent any particular individual or entity from processing an excessive share of the pollock available to be harvested in the directed pollock fishery. In the event the North Pacific Council recommends and the Secretary approves an excessive processing share that is lower than 17.5 percent, any individual or entity that previously processed a percentage greater than such share shall be allowed to continue to process such percentage, except that their percentage may not exceed 17.5 percent (excluding pollock processed by catcher/processors that was harvested in the directed pollock fishery by catcher vessels eligible under 208(b)) and shall be reduced if their percentage decreases, until their percentage is below such share. In recommending the excessive processing share, the North Pacific Council shall consider the need of catcher vessels in the directed pollock fishery to have competitive buyers for the pollock harvested by such vessels.

“(3) REVIEW BY MARITIME ADMINISTRATION.—At the request of the North Pacific Council or the Secretary, any individual or entity believed by such Council or the Secretary to have exceeded the percentage in either paragraph (1) or (2) shall submit such information to the Administrator of the Maritime Administration as the Administrator deems appropriate to allow the Administrator to determine whether such individual or entity has exceeded either such percentage. The Administrator shall make a finding as soon as practicable upon such request and shall submit such finding to the North Pacific Council and the Secretary. For the purposes of this subsection, any entity in which 10 percent or more of the interest is owned or controlled by another individual or entity shall be considered to be the same entity as the other individual or entity.

“(f) LANDING TAX JURISDICTION.—Any contract filed under subsection (a) shall include a contract clause

under which the parties to the contract agree to make payments to the State of Alaska for any pollock harvested in the directed pollock fishery which is not landed in the State of Alaska, in amounts which would otherwise accrue had the pollock been landed in the State of Alaska subject to any landing taxes established under Alaska law. Failure to include such a contract clause or for such amounts to be paid shall result in a revocation of the authority to form fishery cooperatives under section 1 of the Act of June 25, 1934 (15 U.S.C. 521 et seq.).

“(g) PENALTIES.—The violation of any of the requirements of this subtitle or any regulation or permit issued pursuant to this subtitle shall be considered the commission of an act prohibited by section 307 of the Magnuson-Stevens Act (16 U.S.C. 1857), and sections 308, 309, 310, and 311 of such Act (16 U.S.C. 1858, 1859, 1860, and 1861) shall apply to any such violation in the same manner as to the commission of an act prohibited by section 307 of such Act (16 U.S.C. 1857). In addition to the civil penalties and permit sanctions applicable to prohibited acts under section 308 of such Act (16 U.S.C. 1858), any person who is found by the Secretary, after notice and an opportunity for a hearing in accordance with section 554 of title 5, United States Code, to have violated a requirement of this section shall be subject to the forfeiture to the Secretary of Commerce of any fish harvested or processed during the commission of such act.

“SEC. 211. PROTECTIONS FOR OTHER FISHERIES; CONSERVATION MEASURES.

“(a) GENERAL.—The North Pacific Council shall recommend for approval by the Secretary such conservation and management measures as it determines necessary to protect other fisheries under its jurisdiction and the participants in those fisheries, including processors, from adverse impacts caused by this Act [probably should be “this title”, see Tables for classification] or fishery cooperatives in the directed pollock fishery.

“(b) CATCHER/PROCESSOR RESTRICTIONS.—

“(1) GENERAL.—The restrictions in this subsection shall take effect on January 1, 1999 and shall remain in effect thereafter except that they may be superceded (with the exception of paragraph (4)) by conservation and management measures recommended after the date of the enactment of this Act [Oct. 21, 1998] by the North Pacific Council and approved by the Secretary in accordance with the Magnuson-Stevens Act.

“(2) BERING SEA FISHING.—The catcher/processors eligible under paragraphs (1) through (20) of section 208(e) are hereby prohibited from, in the aggregate—

“(A) exceeding the percentage of the harvest available in the offshore component of any Bering Sea and Aleutian Islands groundfish fishery (other than the pollock fishery) that is equivalent to the total harvest by such catcher/processors and the catcher/processors listed in section 209 in the fishery in 1995, 1996, and 1997 relative to the total amount available to be harvested by the offshore component in the fishery in 1995, 1996, and 1997;

“(B) exceeding the percentage of the prohibited species available in the offshore component of any Bering Sea and Aleutian Islands groundfish fishery (other than the pollock fishery) that is equivalent to the total of the prohibited species harvested by such catcher/processors and the catcher/processors listed in section 209 in the fishery in 1995, 1996, and 1997 relative to the total amount of prohibited species available to be harvested by the offshore component in the fishery in 1995, 1996, and 1997; and

“(C) fishing for Atka mackerel in the eastern area of the Bering Sea and Aleutian Islands and from exceeding the following percentages of the directed harvest available in the Bering Sea and Aleutian Islands Atka mackerel fishery—

- “(i) 11.5 percent in the central area; and
- “(ii) 20 percent in the western area.

“(3) BERING SEA PROCESSING.—The catcher/processors eligible under paragraphs (1) through (20) of section 208(e) are hereby prohibited from—

“(A) processing any of the directed fishing allowances under paragraphs (1) or (3) of section 206(b); and

“(B) processing any species of crab harvested in the Bering Sea and Aleutian Islands Management Area.

“(4) GULF OF ALASKA.—The catcher/processors eligible under paragraphs (1) through (20) of section 208(e) are hereby prohibited from—

“(A) harvesting any fish in the Gulf of Alaska;

“(B) processing any groundfish harvested from the portion of the exclusive economic zone off Alaska known as area 630 under the fishery management plan for Gulf of Alaska groundfish; or

“(C) processing any pollock in the Gulf of Alaska (other than as bycatch in non-pollock groundfish fisheries) or processing, in the aggregate, a total of more than 10 percent of the cod harvested from areas 610, 620, and 640 of the Gulf of Alaska under the fishery management plan for Gulf of Alaska groundfish.

“(5) FISHERIES OTHER THAN NORTH PACIFIC.—The catcher/processors eligible under paragraphs (1) through (20) of section 208(e) and motherships eligible under section 208(d) are hereby prohibited from harvesting fish in any fishery under the authority of any regional fishery management council established under section 302(a) of the Magnuson-Stevens Act (16 U.S.C. 1852(a)) other than the North Pacific Council, except for the Pacific whiting fishery, and from processing fish in any fishery under the authority of any such regional fishery management council other than the North Pacific Council, except in the Pacific whiting fishery, unless the catcher/processor or mothership is authorized to harvest or process fish under a fishery management plan recommended by the regional fishery management council of jurisdiction and approved by the Secretary.

“(6) OBSERVERS AND SCALES.—The catcher/processors eligible under paragraphs (1) through (20) of section 208(e) shall—

“(A) have two observers onboard at all times while groundfish is being harvested, processed, or received from another vessel in any fishery under the authority of the North Pacific Council; and

“(B) weigh its catch on a scale onboard approved by the National Marine Fisheries Service while harvesting groundfish in fisheries under the authority of the North Pacific Council.

This paragraph shall take effect on January 1, 1999 for catcher/processors eligible under paragraphs (1) through (20) of section 208(e) that will harvest pollock allocated under section 206(a) in 1999, and shall take effect on January 1, 2000 for all other catcher/processors eligible under such paragraphs of section 208(e).

“(c) CATCHER VESSEL AND SHORESIDE PROCESSOR RESTRICTIONS.—

“(1) REQUIRED COUNCIL RECOMMENDATIONS.—By not later than July 1, 1999, the North Pacific Council shall recommend for approval by the Secretary conservation and management measures to—

“(A) prevent the catcher vessels eligible under subsections (a), (b), and (c) of section 208 from exceeding in the aggregate the traditional harvest levels of such vessels in other fisheries under the authority of the North Pacific Council as a result of fishery cooperatives in the directed pollock fishery; and

“(B) protect processors not eligible to participate in the directed pollock fishery from adverse effects as a result of this Act or fishery cooperatives in the directed pollock fishery.

If the North Pacific Council does not recommend such conservation and management measures by such date, or if the Secretary determines that such conservation and management measures recommended

by the North Pacific Council are not adequate to fulfill the purposes of this paragraph, the Secretary may by regulation restrict or change the authority in section 210(b) to the extent the Secretary deems appropriate, including by preventing fishery cooperatives from being formed pursuant to such section and by providing greater flexibility with respect to the shoreside processor or shoreside processors to which catcher vessels in a fishery cooperative under section 210(b) may deliver pollock.

“(2) BERING SEA CRAB AND GROUND FISH.—

“(A) Effective January 1, 2000, the owners of the motherhips eligible under section 208(d) and the shoreside processors eligible under section 208(f) that receive pollock from the directed pollock fishery under a fishery cooperative are hereby prohibited from processing, in the aggregate for each calendar year, more than the percentage of the total catch of each species of crab in directed fisheries under the jurisdiction of the North Pacific Council than facilities operated by such owners processed of each such species in the aggregate, on average, in 1995, 1996, 1997. For the purposes of this subparagraph, the term ‘facilities’ means any processing plant, catcher/processor, mothership, floating processor, or any other operation that processes fish. Any entity in which 10 percent or more of the interest is owned or controlled by another individual or entity shall be considered to be the same entity as the other individual or entity for the purposes of this subparagraph.

“(B) Under the authority of section 301(a)(4) of the Magnuson-Stevens Act (16 U.S.C. 1851(a)(4)), the North Pacific Council is directed to recommend for approval by the Secretary conservation and management measures to prevent any particular individual or entity from harvesting or processing an excessive share of crab or of groundfish in fisheries in the Bering Sea and Aleutian Islands Management Area.

“(C) The catcher vessels eligible under section 208(b) are hereby prohibited from participating in a directed fishery for any species of crab in the Bering Sea and Aleutian Islands Management Area unless the catcher vessel harvested crab in the directed fishery for that species of crab in such Area during 1997 and is eligible to harvest such crab in such directed fishery under the license limitation program recommended by the North Pacific Council and approved by the Secretary. The North Pacific Council is directed to recommend measures for approval by the Secretary to eliminate latent licenses under such program, and nothing in this subparagraph shall preclude the Council from recommending measures more restrictive than under this paragraph.

“(3) FISHERIES OTHER THAN NORTH PACIFIC.—

“(A) By not later than July 1, 2000, the Pacific Fishery Management Council established under section 302(a)(1)(F) of the Magnuson-Stevens Act (16 U.S.C. 1852(a)(1)(F)) shall recommend for approval by the Secretary conservation and management measures to protect fisheries under its jurisdiction and the participants in those fisheries from adverse impacts caused by this Act [probably should be “this title”, see Tables for classification] or by any fishery cooperatives in the directed pollock fishery.

“(B) If the Pacific Council does not recommend such conservation and management measures by such date, or if the Secretary determines that such conservation and management measures recommended by the Pacific Council are not adequate to fulfill the purposes of this paragraph, the Secretary may by regulation implement adequate measures including, but not limited to, restrictions on vessels which harvest pollock under a fishery cooperative which will prevent such vessels from harvesting Pacific groundfish, and restrictions on the number of processors eligible to process Pacific groundfish.

“(d) BYCATCH INFORMATION.—Notwithstanding section 402 of the Magnuson-Stevens Act (16 U.S.C. 1881a), the North Pacific Council may recommend and the Secretary may approve, under such terms and conditions as the North Pacific Council and Secretary deem appropriate, the public disclosure of any information from the groundfish fisheries under the authority of such Council that would be beneficial in the implementation of section 301(a)(9) or section 303(a)(11) of the Magnuson-Stevens Act (16 U.S.C. 1851(a)(9) and 1853(a)(11)).

“(e) COMMUNITY DEVELOPMENT LOAN PROGRAM.—Under the authority of title XI of the Merchant Marine Act, 1936 ([former] 46 U.S.C. App. 1271 et seq.) Notwithstanding the eligibility criteria in section 208(a) and section 208(c), the LISA MARIE (United States official number 1038717) shall be eligible under such sections in the same manner as other vessels eligible under such sections.

“(c) CHANGES TO FISHERY COOPERATIVE LIMITATIONS AND POLLOCK CDQ ALLOCATION.—The North Pacific Council may recommend and the Secretary may approve conservation and management measures in accordance with the Magnuson-Stevens Act—

“(1) that supersede the provisions of this subtitle, except for sections 206 and 208, for conservation purposes or to mitigate adverse effects in fisheries or on owners of fewer than three vessels in the directed pollock fishery caused by this title or fishery cooperatives in the directed pollock fishery, provided such measures take into account all factors affecting the fisheries and are imposed fairly and equitably to the extent practicable among and within the sectors in the directed pollock fishery;

“(2) that supersede the allocation in section 206(a) for any of the years 2002, 2003, and 2004, upon the finding by such Council that the western Alaska community development quota program for pollock has been adversely affected by the amendments in this subtitle; or

“(3) that supersede the criteria required in paragraph (1) of section 210(b) to be used by the Secretary to set the percentage allowed to be harvested by catcher vessels pursuant to a fishery cooperative under such paragraph.

(6) The Secretary may remove for cause any member of a Council required to be appointed by the Secretary in accordance with paragraphs⁴ (2) or (5) if—

(2) The following guidelines apply with respect to the conduct of business at meetings of a Council, of the Council coordination committee established under subsection (l), and of the scientific and statistical committees or other committees or advisory panels established under subsection (g):

(A) Unless closed in accordance with paragraph (3), each regular meeting and each emergency meeting shall be open to the public.

(B) Emergency meetings shall be held at the call of the chairman or equivalent presiding officer.

(C) Timely public notice of each regular meeting and each emergency meeting, including the time, place, and agenda of the meeting, shall be provided by any means that will result in wide publicity in the major fishing ports of the region (and in other major fishing ports having a direct interest in the affected fishery), except that e-mail notification and website postings alone are not sufficient. Timely notice of each regular meeting shall also be published in the Federal Register. The published agenda of the meeting may not be modified to include additional matters for Council action without public notice or within 14 days prior to the meeting date, unless such modification is to address an emergency action under section 1855(c) of this title, in which case public notice shall be given immediately.

(D) Interested persons shall be permitted to present oral or written statements regarding the matters on the agenda at meetings. All written information submitted to a Council by an interested person shall include a statement of the source and date of such information. Any oral or written statement shall include a brief description of the background and interests of the person in the subject of the oral or written statement.

(E) Detailed minutes of each meeting of the Council, except for any closed session, shall be kept and shall contain a record of the persons present, a complete and accurate description of matters discussed and conclusions reached, and copies of all statements filed. The Chairman shall certify the accuracy of the minutes of each such meeting and submit a copy there-

This subparagraph⁶ does not require notification regarding any brief closure of a portion of a meeting in order to discuss employment or other internal administrative matters.

(4) Each Council shall establish appropriate procedures applicable to it and to its committee and advisory panels for ensuring the confidentiality of the statistics that may be submitted to it by Federal or State authorities, and may be voluntarily submitted to it by private persons; including, but not limited to, procedures for the restriction of Council employee access and the prevention of conflicts of interest; except that such procedures, in the case of statistics submitted to the Council by a State or by the Secretary under section 1881a(b) of this title, must be consistent with the laws and regulations of that State, or with the procedures of the Secretary, as the case may be, concerning the confidentiality of the statistics.

(5) Each Council shall specify those procedures that are necessary or appropriate to ensure that the committees and advisory panels established under subsection (g) of this section are involved, on a continuing basis, in the development and amendment of fishery management plans.

(1) For the purposes of this subsection—

(A) the term “affected individual” means an individual who—

(i) is nominated by the Governor of a State for appointment as a voting member of a Council in accordance with subsection (b)(2) of this section; or

(ii) is a voting member of a Council appointed—

(I) under subsection (b)(2) of this section; or

(II) under subsection (b)(5) of this section who is not subject to disclosure and recusal requirements under the laws of an Indian tribal government; and

(B) the term “designated official” means a person with expertise in Federal conflict-of-interest requirements who is designated by the Secretary, in consultation with the Council, to attend Council meetings and make determinations under paragraph (7)(B).

(2) Each affected individual must disclose any financial interest held by—

(A) that individual;

(B) the spouse, minor child, or partner of that individual; and

(C) any organization (other than the Council) in which that individual is serving as an officer, director, trustee, partner, or employee;

in any harvesting, processing, lobbying, advocacy, or marketing activity that is being, or will be, undertaken within any fishery over which the Council concerned has jurisdiction, or with respect to an individual or organization with a financial interest in such activity.

(3) The disclosure required under paragraph (2) shall be made—

(A) in the case of an affected individual referred to in paragraph (1)(A)(i), before appointment by the Secretary; and

(B) in the case of an affected individual referred to in paragraph (1)(A)(ii), within 45 days of taking office.

A Council decision shall be considered to have a significant and predictable effect on a financial interest if there is a close causal link between the Council decision and an expected and substantially disproportionate benefit to the financial interest of the affected individual relative to the financial interests of other participants in the same gear type or sector of the fishery. An affected individual who may not vote may participate in Council deliberations relating to the decision after notifying the Council of the voting recusal and identifying the financial interest that would be affected.

(B) At the request of an affected individual, or upon the initiative of the appropriate designated official, the designated official shall make a determination for the record whether a Council decision would have a significant and predictable effect on a financial interest.

(C) Any Council member may submit a written request to the Secretary to review any determination by the designated official under subparagraph (B) within 10 days of such determination. Such review shall be completed within 30 days of receipt of the request.

(D) Any affected individual who does not vote in a Council decision in accordance with this subsection may state for the record how he or she would have voted on such decision if he or she had voted.

(E) If the Council makes a decision before the Secretary has reviewed a determination under subparagraph (C), the eventual ruling may not be treated as cause for the invalidation or reconsideration by the Secretary of such decision.

(F) The Secretary, in consultation with the Councils and by not later than one year from October 11, 1996, shall promulgate regulations which prohibit an affected individual from voting in accordance with subparagraph (A), and which allow for the making of determinations under subparagraphs (B) and (C).

(8) Section 208 of title 18 does not apply to an affected individual referred to in paragraph (1)(A)(ii) during any time in which that individual is in compliance with the regulations prescribed under paragraph (5).

(9) On January 1, 2008, and annually thereafter, the Secretary shall submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Resources on action taken by the Secretary and the Councils to implement the disclosure of financial interest and recusal requirements of this subsection, including identification of any conflict of interest problems with respect to the Councils and scientific and statistical committees and recommendations for addressing any such problems.

(B) the portion of such optimum yield which, on an annual basis, will not be harvested by fishing vessels of the United States and can be made available for foreign fishing, and

(C) the capacity and extent to which United States fish processors, on an annual basis, will process that portion of such optimum yield that will be harvested by fishing vessels of the United States;

(5) specify the pertinent data which shall be submitted to the Secretary with respect to commercial, recreational,¹ charter fishing, and fish processing in the fishery, including, but not limited to, information regarding the type and quantity of fishing gear used, catch by species in numbers of fish or weight thereof, areas in which fishing was engaged in, time of fishing, number of hauls, economic information necessary to meet the requirements of this chapter, and the estimated processing capacity of, and the actual processing capacity utilized by, United States fish processors;²

(7) describe and identify essential fish habitat for the fishery based on the guidelines established by the Secretary under section 1855(b)(1)(A) of this title, minimize to the extent practicable adverse effects on such habitat caused by fishing, and identify other actions to encourage the conservation and enhancement of such habitat;

(8) in the case of a fishery management plan that, after January 1, 1991, is submitted to the Secretary for review under section 1854(a) of this title (including any plan for which an amendment is submitted to the Secretary for such review) or is prepared by the Secretary, assess and specify the nature and extent of scientific data which is needed for effective implementation of the plan;

(A) participants in the fisheries and fishing communities affected by the plan or amendment;

(B) participants in the fisheries conducted in adjacent areas under the authority of another Council, after consultation with such Council and representatives of those participants; and

(C) the safety of human life at sea, including whether and to what extent such measures may affect the safety of participants in the fishery;

(10) specify objective and measurable criteria for identifying when the fishery to which the plan applies is overfished (with an analysis of how the criteria were determined and the relationship of the criteria to the reproductive potential of stocks of fish in that fishery) and, in the case of a fishery which the Council or the Secretary has determined is approaching an overfished condition or is overfished, contain conservation and management measures to prevent overfishing or end overfishing and rebuild the fishery;

(11) establish a standardized reporting methodology to assess the amount and type of bycatch occurring in the fishery, and include conservation and management measures that, to the extent practicable and in the following priority—

(A) minimize bycatch; and

(B) minimize the mortality of bycatch which cannot be avoided;

(12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery, including its economic impact, and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors;

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate, taking into consideration the economic impact of the harvest restrictions or recovery benefits on the fishery participants in each sector, any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery and;³

(15) establish a mechanism for specifying annual catch limits in the plan (including a multiyear plan), implementing regulations, or annual specifications, at a level such that overfishing does not occur in the fishery, including measures to ensure accountability.

(b) Discretionary provisions

Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, may—

(1) require a permit to be obtained from, and fees to be paid to, the Secretary, with respect to—

(A) any fishing vessel of the United States fishing, or wishing to fish, in the exclusive economic zone or for anadromous species or Continental Shelf fishery resources beyond such zone;

(B) the operator of any such vessel; or

(C) any United States fish processor who first receives fish that are subject to the plan;

(B) designate such zones in areas where deep sea corals are identified under section 1884 of this title, to protect deep sea corals from physical damage from fishing gear or to prevent loss or damage to such fishing gear from interactions with deep sea corals, after considering long-term sustainable uses of fishery resources in such areas; and

(C) with respect to any closure of an area under this chapter that prohibits all fishing, ensure that such closure—

(i) is based on the best scientific information available;

(ii) includes criteria to assess the conservation benefit of the closed area;

(iii) establishes a timetable for review of the closed area's performance that is consistent with the purposes of the closed area; and

(iv) is based on an assessment of the benefits and impacts of the closure, including its size, in relation to other management measures (either alone or in combination with such measures), including the benefits and impacts of limiting access to: users of the area, overall fishing activity, fishery science, and fishery and marine conservation;

(8) require that one or more observers be carried on board a vessel of the United States engaged in fishing for species that are subject to the plan, for the purpose of collecting data necessary for the conservation and management of the fishery; except that such a vessel shall not be required to carry an observer on board if the facilities of the vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized;

(9) assess and specify the effect which the conservation and management measures of the plan will have on the stocks of naturally spawning anadromous fish in the region;

Except as provided in subparagraph (D), a Council may initiate a fishery management plan or amendment to establish a limited access privilege program to harvest fish on its own initiative or if the Secretary has certified an appropriate petition.

(B) Petition

A group of fishermen constituting more than 50 percent of the permit holders, or holding more than 50 percent of the allocation, in the fishery for which a limited access privilege program to harvest fish is sought, may submit a petition to the Secretary requesting that the relevant Council or Councils with authority over the fishery be authorized to initiate the development of the program. Any such petition shall clearly state the fishery to which the limited access privilege program would apply. For multispecies permits in the Gulf of Mexico, only those participants who have substantially fished the species proposed to be included in the limited access program shall be eligible to sign a petition for such a program and shall serve as the basis for determining the percentage described in the first sentence of this subparagraph.

(C) Certification by Secretary

Upon the receipt of any such petition, the Secretary shall review all of the signatures on the petition and, if the Secretary determines that the signatures on the petition represent more than 50 percent of the permit holders, or holders of more than 50 percent of the allocation in the fishery, as described by subparagraph (B), the Secretary shall certify the petition to the appropriate Council or Councils.

(D) New England and Gulf referendum

(i) Except as provided in clause (iii) for the Gulf of Mexico commercial red snapper fishery, the New England and Gulf Councils may not submit, and the Secretary may not approve or implement, a fishery management

plan or amendment that creates an individual fishing quota program, including a Secretarial plan, unless such a system, as ultimately developed, has been approved by more than $\frac{2}{3}$ of those voting in a referendum among eligible permit holders, or other persons described in clause (v), with respect to the New England Council, and by a majority of those voting in the referendum among eligible permit holders with respect to the Gulf Council. For multispecies permits in the Gulf of Mexico, only those participants who have substantially fished the species proposed to be included in the individual fishing quota program shall be eligible to vote in such a referendum. If an individual fishing quota program fails to be approved by the requisite number of those voting, it may be revised and submitted for approval in a subsequent referendum.

(ii) The Secretary shall conduct a referendum under this subparagraph, including notifying all persons eligible to participate in the referendum and making available to them information concerning the schedule, procedures, and eligibility requirements for the referendum process and the proposed individual fishing quota program. (iv) Chapter 35 of title 44 (commonly known as the Paperwork Reduction Act) does not apply to the referenda conducted under this subparagraph.

(v) The Secretary shall promulgate criteria for determining whether additional fishery participants are eligible to vote in the New England referendum described in clause (i) in order to ensure that crew members who derive a significant percentage of their total income from the fishery under the proposed program are eligible to vote in the referendum.

(vi) In this subparagraph, the term “individual fishing quota” does not include a sector allocation.

(7) Transferability

In establishing a limited access privilege program, a Council shall—

(A) establish a policy and criteria for the transferability of limited access privileges (through sale or lease), that is consistent with the policies adopted by the Council for the fishery under paragraph (5); and

(B) establish, in coordination with the Secretary, a process for monitoring of transfers (including sales and leases) of limited access privileges.

(8) Preparation and implementation of secretarial plans

This subsection also applies to a plan prepared and implemented by the Secretary under section 1854(c) or 1854(g) of this title.

(9) Antitrust savings clause

Nothing in this chapter shall be construed to modify, impair, or supersede the operation of any of the antitrust laws. For purposes of the preceding sentence, the term “antitrust laws” has the meaning given such term in subsection (a) of section 12 of title 15, except that such term includes section 45 of title 15 to the extent that such section 45 applies to unfair methods of competition.

(d) Auction and other programs

In establishing a limited access privilege program, a Council shall consider, and may provide, if appropriate, an auction system or other program to collect royalties for the initial, or any subsequent, distribution of allocations in a limited access privilege program if—

(1) the system or program is administered in such a way that the resulting distribution of limited access privilege shares meets the program requirements of this section; and

(2) revenues generated through such a royalty program are deposited in the Limited Access System Administration Fund established by section 1855(h)(5)(B) of this title and available subject to annual appropriations.

(e) Cost recovery

In establishing a limited access privilege program, a Council shall—

(1) develop a methodology and the means to identify and assess the management, data collection and analysis, and enforcement programs that are directly related to and in support of the program; and

(2) provide, under section 1854(d)(2) of this title, for a program of fees paid by limited access privilege holders that will cover the costs of management, data collection and analysis, and enforcement activities.

(f) Characteristics

A limited access privilege established after January 12, 2007, is a permit issued for a period of not more than 10 years that—

(1) will be renewed before the end of that period, unless it has been revoked, limited, or modified as provided in this subsection;

(2) will be revoked, limited, or modified if the holder is found by the Secretary, after notice and an opportunity for a hearing under section 554 of title 5, to have failed to comply with any term of the plan identified in the plan as cause for revocation, limitation, or modification of a permit, which may include conservation requirements established under the plan;

(3) may be revoked, limited, or modified if the holder is found by the Secretary, after notice and an opportunity for a hearing under section 554 of title 5, to have committed an act prohibited by section 1857 of this title; and

(4) may be acquired, or reacquired, by participants in the program under a mechanism established by the Council if it has been re-

voked, limited, or modified under paragraph (2) or (3).

(g) Limited access privilege assisted purchase program

(1) In general

A Council may submit, and the Secretary may approve and implement, a program which reserves up to 25 percent of any fees collected from a fishery under section 1854(d)(2) of this title to be used, pursuant to section 53706(a)(7) of title 46, to issue obligations that aid in financing—

(A) the purchase of limited access privileges in that fishery by fishermen who fish from small vessels; and

(B) the first-time purchase of limited access privileges in that fishery by entry level fishermen.

(2) Eligibility criteria

A Council making a submission under paragraph (1) shall recommend criteria, consistent with the provisions of this chapter, that a fisherman must meet to qualify for guarantees under subparagraphs (A) and (B) of paragraph (1) and the portion of funds to be allocated for guarantees under each subparagraph.

(h) Effect on certain existing shares and programs

Nothing in this chapter, or the amendments made by the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, shall be construed to require a reallocation or a reevaluation of individual quota shares, processor quota shares, cooperative programs, or other quota programs, including sector allocation in effect before January 12, 2007.

(i) Transition rules

The requirements of this section shall not apply to any quota program, including any individual quota program, cooperative program, or sector allocation for which a Council has taken final action or which has been submitted by a Council to the Secretary, or approved by the Secretary, within 6 months after January 12, 2007, except that—

(1) the requirements of section 1853(d) of this title in effect on the day before January 12, 2007, shall apply to any such program;

(2) the program shall be subject to review under subsection (c)(1)(G) of this section not later than 5 years after the program implementation; and

(3) nothing in this subsection precludes a Council from incorporating criteria contained in this section into any such plans.

§ 1854. Action by Secretary

(a) Review of plans

(1) Upon transmittal by the Council to the Secretary of a fishery management plan or plan amendment, the Secretary shall—

(A) immediately commence a review of the plan or amendment to determine whether it is consistent with the national standards, the other provisions of this chapter, and any other applicable law; and

(B) immediately publish in the Federal Register a notice stating that the plan or amendment is available and that written information, views, or comments of interested persons on the plan or amendment may be submitted to the Secretary during the 60-day period beginning on the date the notice is published.

(2) In undertaking the review required under paragraph (1), the Secretary shall—

(A) take into account the information, views, and comments received from interested persons;

(B) consult with the Secretary of State with respect to foreign fishing; and

(C) consult with the Secretary of the department in which the Coast Guard is operating with respect to enforcement at sea and to fishery access adjustments referred to in section 1853(a)(6) of this title.

(3) The Secretary shall approve, disapprove, or partially approve a plan or amendment within 30

days of the end of the comment period under paragraph (1) by written notice to the Council. A notice of disapproval or partial approval shall specify—

- (A) the applicable law with which the plan or amendment is inconsistent;
- (B) the nature of such inconsistencies; and
- (C) recommendations concerning the actions that could be taken by the Council to conform such plan or amendment to the requirements of applicable law.

If the Secretary does not notify a Council within 30 days of the end of the comment period of the approval, disapproval, or partial approval of a plan or amendment, then such plan or amendment shall take effect as if approved.

(4) If the Secretary disapproves or partially approves a plan or amendment, the Council may submit a revised plan or amendment to the Secretary for review under this subsection.

(5) For purposes of this subsection and subsection (b) of this section, the term “immediately” means on or before the 5th day after the day on which a Council transmits to the Secretary a fishery management plan, plan amendment, or proposed regulation that the Council characterizes as final.

(b) Review of regulations

(1) Upon transmittal by the Council to the Secretary of proposed regulations prepared under section 1853(c) of this title, the Secretary shall immediately initiate an evaluation of the proposed regulations to determine whether they are consistent with the fishery management plan, plan amendment, this chapter and other applicable law. Within 15 days of initiating such evaluation the Secretary shall make a determination and—

- (A) if that determination is affirmative, the Secretary shall publish such regulations in the Federal Register, with such technical changes as may be necessary for clarity and an explanation of those changes, for a public comment period of 15 to 60 days; or
- (B) if that determination is negative, the Secretary shall notify the Council in writing of the inconsistencies and provide recommendations on revisions that would make the proposed regulations consistent with the fishery management plan, plan amendment, this chapter, and other applicable law.

(2) Upon receiving a notification under paragraph (1)(B), the Council may revise the proposed regulations and submit them to the Secretary for reevaluation under paragraph (1).

(3) The Secretary shall promulgate final regulations within 30 days after the end of the comment period under paragraph (1)(A). The Secretary shall consult with the Council before making any revisions to the proposed regulations, and must publish in the Federal Register an explanation of any differences between the proposed and final regulations.

(c) Preparation and review of Secretarial plans

(1) The Secretary may prepare a fishery management plan, with respect to any fishery, or any amendment to any such plan, in accordance with the national standards, the other provisions of this chapter, and any other applicable law, if—

(A) the appropriate Council fails to develop and submit to the Secretary, after a reasonable period of time, a fishery management plan for such fishery, or any necessary amendment to such a plan, if such fishery requires conservation and management;

(B) the Secretary disapproves or partially disapproves any such plan or amendment, or disapproves a revised plan or amendment, and the Council involved fails to submit a revised or further revised plan or amendment; or

(C) the Secretary is given authority to prepare such plan or amendment under this section.

(2) In preparing any plan or amendment under this subsection, the Secretary shall—

(A) conduct public hearings, at appropriate times and locations in the geographical areas concerned, so as to allow interested persons an opportunity to be heard in the preparation and amendment of the plan and any regulations implementing the plan; and

(B) consult with the Secretary of State with respect to foreign fishing and with the Secretary of the department in which the Coast Guard is operating with respect to enforcement at sea.

(3) Notwithstanding paragraph (1) for a fishery under the authority of a Council, the Secretary may not include in any fishery management plan, or any amendment to any such plan, prepared by him, a provision establishing a limited access system, including any limited access privilege program, unless such system is first approved by a majority of the voting members, present and voting, of each appropriate Council.

(4) Whenever the Secretary prepares a fishery management plan or plan amendment under this section, the Secretary shall immediately—

(A) for a plan or amendment for a fishery under the authority of a Council, submit such plan or amendment to the appropriate Council for consideration and comment; and

(B) publish in the Federal Register a notice stating that the plan or amendment is available and that written information, views, or comments of interested persons on the plan or amendment may be submitted to the Secretary during the 60-day period beginning on the date the notice is published.

(5) Whenever a plan or amendment is submitted under paragraph (4)(A), the appropriate Council must submit its comments and recommendations, if any, regarding the plan or amendment to the Secretary before the close of the 60-day period referred to in paragraph (4)(B). After the close of such 60-day period, the Secretary, after taking into account any such comments and recommendations, as well as any views, information, or comments submitted under paragraph (4)(B), may adopt such plan or amendment.

(6) The Secretary may propose regulations in the Federal Register to implement any plan or amendment prepared by the Secretary. In the case of a plan or amendment to which paragraph (4)(A) applies, such regulations shall be submitted to the Council with such plan or amendment. The comment period on proposed regulations shall be 60 days, except that the Secretary

may shorten the comment period on minor revisions to existing regulations.

(7) The Secretary shall promulgate final regulations within 30 days after the end of the comment period under paragraph (6). The Secretary must publish in the Federal Register an explanation of any substantive differences between the proposed and final rules. All final regulations must be consistent with the fishery management plan, with the national standards and other provisions of this chapter, and with any other applicable law.

(d) Establishment of fees

(1) The Secretary shall by regulation establish the level of any fees which are authorized to be charged pursuant to section 1853(b)(1) of this title. The Secretary may enter into a cooperative agreement with the States concerned under which the States administer the permit system and the agreement may provide that all or part of the fees collected under the system shall accrue to the States. The level of fees charged under this subsection shall not exceed the administrative costs incurred in issuing the permits.

(2)(A) Notwithstanding paragraph (1), the Secretary is authorized and shall collect a fee to recover the actual costs directly related to the management, data collection, and enforcement of any—

- (i) limited access privilege program; and
- (ii) community development quota program that allocates a percentage of the total allowable catch of a fishery to such program.

(B) Such fee shall not exceed 3 percent of the ex-vessel value of fish harvested under any such program, and shall be collected at either the time of the landing, filing of a landing report, or sale of such fish during a fishing season or in the last quarter of the calendar year in which the fish is harvested.

(C)(i) Fees collected under this paragraph shall be in addition to any other fees charged under this chapter and shall be deposited in the Limited Access System Administration Fund established under section 1855(h)(5)(B) of this title.

(ii) Upon application by a State, the Secretary shall transfer to such State up to 33 percent of any fee collected pursuant to subparagraph (A) under a community development quota program and deposited in the Limited Access System Administration Fund in order to reimburse such State for actual costs directly incurred in the management and enforcement of such program.

(e) Rebuilding overfished fisheries

(1) The Secretary shall report annually to the Congress and the Councils on the status of fisheries within each Council's geographical area of authority and identify those fisheries that are overfished or are approaching a condition of being overfished. For those fisheries managed under a fishery management plan or international agreement, the status shall be determined using the criteria for overfishing specified in such plan or agreement. A fishery shall be classified as approaching a condition of being overfished if, based on trends in fishing effort, fishery resource size, and other appropriate factors, the Secretary estimates that the fishery will become overfished within two years.

(2) If the Secretary determines at any time that a fishery is overfished, the Secretary shall immediately notify the appropriate Council and request that action be taken to end overfishing in the fishery and to implement conservation and management measures to rebuild affected stocks of fish. The Secretary shall publish each notice under this paragraph in the Federal Register.

(3) Within 2 years after an identification under paragraph (1) or notification under paragraphs (2) or (7), the appropriate Council (or the Secretary, for fisheries under section 1852(a)(3) of this title) shall prepare and implement a fishery management plan, plan amendment, or proposed regulations for the fishery to which the identification or notice applies—

(A) to end overfishing immediately in the fishery and to rebuild affected stocks of fish; or

(B) to prevent overfishing from occurring in the fishery whenever such fishery is identified as approaching an overfished condition.

(4) For a fishery that is overfished, any fishery management plan, amendment, or proposed regulations prepared pursuant to paragraph (3) or paragraph (5) for such fishery shall—

(A) specify a time period for rebuilding the fishery that shall—

(i) be as short as possible, taking into account the status and biology of any overfished stocks of fish, the needs of fishing communities, recommendations by international organizations in which the United States participates, and the interaction of the overfished stock of fish within the marine ecosystem; and

(ii) not exceed 10 years, except in cases where the biology of the stock of fish, other environmental conditions, or management measures under an international agreement in which the United States participates dictate otherwise;

(B) allocate both overfishing restrictions and recovery benefits fairly and equitably among sectors of the fishery; and

(C) for fisheries managed under an international agreement, reflect traditional participation in the fishery, relative to other nations, by fishermen of the United States.

(5) If, within the 2-year period beginning on the date of identification or notification that a fishery is overfished, the Council does not submit to the Secretary a fishery management plan, plan amendment, or proposed regulations required by paragraph (3)(A), the Secretary shall prepare a fishery management plan or plan amendment and any accompanying regulations to stop overfishing and rebuild affected stocks of fish within 9 months under subsection (c) of this section.

(6) During the development of a fishery management plan, a plan amendment, or proposed regulations required by this subsection, the Council may request the Secretary to implement interim measures to reduce overfishing under section 1855(c) of this title until such measures can be replaced by such plan, amendment, or regulations. Such measures, if otherwise in compliance with the provisions of this

chapter, may be implemented even though they are not sufficient by themselves to stop overfishing of a fishery.

(7) The Secretary shall review any fishery management plan, plan amendment, or regulations required by this subsection at routine intervals that may not exceed two years. If the Secretary finds as a result of the review that such plan, amendment, or regulations have not resulted in adequate progress toward ending overfishing and rebuilding affected fish stocks, the Secretary shall—

(A) in the case of a fishery to which section 1852(a)(3) of this title applies, immediately make revisions necessary to achieve adequate progress; or

(B) for all other fisheries, immediately notify the appropriate Council. Such notification shall recommend further conservation and management measures which the Council should consider under paragraph (3) to achieve adequate progress.

(f) Fisheries under authority of more than one Council

(1) Except as provided in paragraph (3),¹ if any fishery extends beyond the geographical area of authority of any one Council, the Secretary may—

(A) designate which Council shall prepare the fishery management plan for such fishery and any amendment to such plan; or

(B) may require that the plan and amendment be prepared jointly by the Councils concerned.

No jointly prepared plan or amendment may be submitted to the Secretary unless it is approved by a majority of the voting members, present and voting, of each Council concerned.

(2) The Secretary shall establish the boundaries between the geographical areas of authority of adjacent Councils.

(g) Atlantic highly migratory species

(1) Preparation and implementation of plan or plan amendment

The Secretary shall prepare a fishery management plan or plan amendment under subsection (c) of this section with respect to any highly migratory species fishery to which section 1852(a)(3) of this title applies. In preparing and implementing any such plan or amendment, the Secretary shall—

(A) consult with and consider the comments and views of affected Councils, commissioners and advisory groups appointed under Acts implementing relevant international fishery agreements pertaining to highly migratory species, and the advisory panel established under section 1852(g) of this title;

(B) establish an advisory panel under section 1852(g) of this title for each fishery management plan to be prepared under this paragraph;

(C) evaluate the likely effects, if any, of conservation and management measures on participants in the affected fisheries and minimize, to the extent practicable, any dis-

advantage to United States fishermen in relation to foreign competitors;

(D) with respect to a highly migratory species for which the United States is authorized to harvest an allocation, quota, or at a fishing mortality level under a relevant international fishery agreement, provide fishing vessels of the United States with a reasonable opportunity to harvest such allocation, quota, or at such fishing mortality level;

(E) review, on a continuing basis (and promptly whenever a recommendation pertaining to fishing for highly migratory species has been made under a relevant international fishery agreement), and revise as appropriate, the conservation and management measures included in the plan;

(F) diligently pursue, through international entities (such as the International Commission for the Conservation of Atlantic Tunas), comparable international fishery management measures with respect to fishing for highly migratory species; and

(G) ensure that conservation and management measures under this subsection—

(i) promote international conservation of the affected fishery;

(ii) take into consideration traditional fishing patterns of fishing vessels of the United States and the operating requirements of the fisheries;

(iii) are fair and equitable in allocating fishing privileges among United States fishermen and do not have economic allocation as the sole purpose; and

(iv) promote, to the extent practicable, implementation of scientific research programs that include the tagging and release of Atlantic highly migratory species.

(2) Certain fish excluded from “bycatch” definition

Notwithstanding section 1802(2) of this title, fish harvested in a commercial fishery managed by the Secretary under this subsection or the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971d), or highly migratory species harvested in a commercial fishery managed by a Council under this chapter or the Western and Central Pacific Fisheries Convention Implementation Act [16 U.S.C. 6901 et seq.], that are not regulatory discards and that are tagged and released alive under a scientific tagging and release program established by the Secretary shall not be considered bycatch for purposes of this chapter.

(h) Repeal or revocation of a fishery management plan

The Secretary may repeal or revoke a fishery management plan for a fishery under the authority of a Council only if the Council approves the repeal or revocation by a three-quarters majority of the voting members of the Council.

(i)² Environmental review process

(1) Procedures

The Secretary shall, in consultation with the Councils and the Council on Environ-

mental Quality, revise and update agency procedures for compliance with the National Environmental Policy Act (42 U.S.C. 4231 et seq.). The procedures shall—

(A) conform to the time lines for review and approval of fishery management plans and plan amendments under this section; and

(B) integrate applicable environmental analytical procedures, including the time frames for public input, with the procedure for the preparation and dissemination of fishery management plans, plan amendments, and other actions taken or approved pursuant to this chapter in order to provide for timely, clear and concise analysis that is useful to decision makers and the public, reduce extraneous paperwork, and effectively involve the public.

(2) Usage

The updated agency procedures promulgated in accordance with this section used by the Councils or the Secretary shall be the sole environmental impact assessment procedure for fishery management plans, amendments, regulations, or other actions taken or approved pursuant to this chapter.

(3) Schedule for promulgation of final procedures

The Secretary shall—

(A) propose revised procedures within 6 months after January 12, 2007;

(B) provide 90 days for public review and comments; and

(C) promulgate final procedures no later than 12 months after January 12, 2007.

(4) Public participation

The Secretary is authorized and directed, in cooperation with the Council on Environmental Quality and the Councils, to involve the affected public in the development of revised procedures, including workshops or other appropriate means of public involvement.

(i)² International overfishing

The provisions of this subsection shall apply in lieu of subsection (e) to a fishery that the Secretary determines is overfished or approaching a condition of being overfished due to excessive international fishing pressure, and for which there are no management measures to end overfishing under an international agreement to which the United States is a party. For such fisheries—

(1) the Secretary, in cooperation with the Secretary of State,³ immediately take appropriate action at the international level to end the overfishing; and

(2) within 1 year after the Secretary's determination, the appropriate Council, or Secretary, for fisheries under section 1852(a)(3) of this title shall—

(A) develop recommendations for domestic regulations to address the relative impact of fishing vessels of the United States on the stock and, if developed by a Council, the

Council shall submit such recommendations to the Secretary; and

(B) develop and submit recommendations to the Secretary of State, and to the Congress, for international actions that will end overfishing in the fishery and rebuild the affected stocks, taking into account the relative impact of vessels of other nations and vessels of the United States on the relevant stock.

(2) If a negotiation panel submits a report, such report shall specify all the areas where consensus was reached by the panel, including, if appropriate, proposed conservation and management measures, as well as any other information submitted by members of the negotiation panel. Upon receipt, the Secretary shall publish such report in the Federal Register for public comment.

(3) Nothing in this subsection shall be construed to require either a Council or the Secretary, whichever is appropriate, to use all or any portion of a report from a negotiation panel established under this subsection in the development of specific conservation and management measures for the fishery for which the panel was established.

(h) Central registry system for limited access system permits

(1) Within 6 months after October 11, 1996, the Secretary shall establish an exclusive central registry system (which may be administered on a regional basis) for limited access system permits established under section 1853(b)(6) of this title or other Federal law, including limited access privileges, which shall provide for the registration of title to, and interests in, such permits, as well as for procedures for changes in the registration of title to such permits upon the occurrence of involuntary transfers, judicial or nonjudicial foreclosure of interests, enforcement of judgments thereon, and related matters deemed appropriate by the Secretary. Such registry system shall—

(A) provide a mechanism for filing notice of a nonjudicial foreclosure or enforcement of a judgment by which the holder of a senior security interest acquires or conveys ownership of a permit, and in the event of a nonjudicial foreclosure, by which the interests of the holders of junior security interests are released when the permit is transferred;

(B) provide for public access to the information filed under such system, notwithstanding section 1881a(b) of this title; and

(C) provide such notice and other requirements of applicable law that the Secretary deems necessary for an effective registry system.

(2) The Secretary shall promulgate such regulations as may be necessary to carry out this subsection, after consulting with the Councils and providing an opportunity for public comment. The Secretary is authorized to contract with non-Federal entities to administer the central registry system.

(3) To be effective and perfected against any person except the transferor, its heirs and devisees, and persons having actual notice thereof, all security interests, and all sales and other transfers of permits described in paragraph (1), shall be registered in compliance with the regulations promulgated under paragraph (2). Such registration shall constitute the exclusive

The Secretary shall notify both the buyer and seller of a permit if a lien has been filed by the Secretary of the Treasury against the permit before collecting any transfer fee under paragraph (5) of this subsection.

(4) The priority of security interests shall be determined in order of filing, the first filed having the highest priority. A validly-filed security interest shall remain valid and perfected notwithstanding a change in residence or place of business of the owner of record. For the purposes of this subsection, "security interest" shall include security interests, assignments, liens and other encumbrances of whatever kind.

(5)(A) Notwithstanding section 1854(d)(1) of this title, the Secretary shall collect a reasonable fee of not more than one-half of one percent of the value of a limited access system permit upon registration of the title to such permit with the central registry system and upon the transfer of such registered title. Any such fee collected shall be deposited in the Limited Access System Administration Fund established under subparagraph (B).

(B) There is established in the Treasury a Limited Access System Administration Fund. The Fund shall be available, without appropriation or fiscal year limitation, only to the Secretary for the purposes of—

(i) administering the central registry system; and

(ii) administering and implementing this chapter in the fishery in which the fees were collected. Sums in the Fund that are not currently needed for these purposes shall be kept on deposit or invested in obligations of, or guaranteed by, the United States.

age approved by the Secretary, or established by Federal law, as of March 1, 2006, for the program. The percentage for each fishery shall be either a directed fishing allowance or include both directed fishing and nontarget needs based on existing practice with respect to the program as of March 1, 2006, for each fishery.

(ii) Exceptions

Notwithstanding clause (i)—

(I) the allocation under the program for each directed fishery of the Bering Sea and Aleutian Islands (other than a fishery for halibut, sablefish, pollock, and crab) shall be a total allocation (directed and nontarget combined) of 10.7 percent effective January 1, 2008; and

(H) Decennial review and adjustment of entity allocations

(i) In general

During calendar year 2012 and every 10 years thereafter, the State of Alaska shall evaluate the performance of each entity participating in the program based on the criteria described in clause (ii).

(ii) Criteria

The panel shall establish a system to be applied under this subparagraph that allows each entity participating in the program to assign relative values to the following criteria to reflect the particular needs of its villages:

(I) Changes during the preceding 10-year period in population, poverty level, and economic development in the entity's member villages.

(II) The overall financial performance of the entity, including fishery and non-fishery investments by the entity.

(III) Employment, scholarships, and training supported by the entity.

(IV) Achieving of the goals of the entity's community development plan.

(iii) Adjustment of allocations

After the evaluation required by clause (i), the State of Alaska shall make a determination, on the record and after an opportunity for a hearing, with respect to the performance of each entity participating in the program for the criteria described in clause (ii). If the State determines that the entity has maintained or improved its overall performance with respect to the criteria, the allocation to such entity under the program shall be extended by the State for the next 10-year period. If the State determines that the entity has not maintained or improved its overall performance with respect to the criteria—

(I) at least 90 percent of the entity's allocation for each species under subparagraph (C) shall be extended by the State for the next 10-year period; and

(II) the State may determine, or the Secretary may determine (if State law prevents the State from making the determination), and implement an appropriate reduction of up to 10 percent of the entity's allocation for each species under subparagraph (C) for all or part of such 10-year period.

(iv) Reallocation of reduced amount

If the State or the Secretary reduces an entity's allocation under clause (iii), the reduction shall be reallocated among other entities participating in the program whose allocations are not reduced during the same period in proportion to each such entity's allocation of the applicable species under subparagraph (C).

Notwithstanding any other provision of law or regulation thereunder, the approval by the Secretary of a community development plan, or an amendment thereof, under the program is not required.

(J) Community development plan defined

In this paragraph, the term "community development plan" means a plan, prepared by an entity referred to in subparagraph (D), for the program that describes how the entity intends—

(i) to harvest its share of fishery resources allocated to the program, or

(ii) to use its share of fishery resources allocated to the program, and any revenue derived from such use, to assist its member villages with projects to advance economic development,

but does not include a plan that allocates fishery resources to the program.

(2)(A) The Western Pacific Council and the Secretary may establish a western Pacific community development program for any fishery under the authority of such Council in order to provide access to such fishery for western Pacific communities that participate in the program.

(B) To be eligible to participate in the western Pacific community development program, a community shall—

(i) be located within the Western Pacific Regional Fishery Management Area;

(ii) meet criteria developed by the Western Pacific Council, approved by the Secretary and published in the Federal Register;

(v) develop and submit a Community Development Plan to the Western Pacific Council and the Secretary.

(C) In developing the criteria for eligible communities under subparagraph (B)(ii), the Western Pacific Council shall base such criteria on traditional fishing practices in or dependence on the fishery, the cultural and social framework relevant to the fishery, and economic barriers to access to the fishery.

(D) For the purposes of this subsection "Western Pacific Regional Fishery Management Area"

means the area under the jurisdiction of the Western Pacific Council, or an island within such area.

(E) Notwithstanding any other provision of this chapter, the Western Pacific Council shall take into account traditional indigenous fishing practices in preparing any fishery management plan.

The Secretary shall, in cooperation with the Western Pacific and the North Pacific Regional Fishery Management Councils, regional educational institutions, and local Western Pacific and Northern Pacific community training entities, establish programs or projects that will improve communication, education, and training on marine resource issues throughout the region and increase scientific education for marine-related professions among coastal community residents, including indigenous Pacific islanders, Native Hawaiians, Alaskan Natives, and other underrepresented groups in the region.

(2) Program components

The program shall—

(A) include marine science and technology education and training programs focused on preparing community residents for employment in marine related professions, including marine resource conservation and management, marine science, marine technology, and maritime operations;

(C) include outreach programs and materials to educate and inform consumers about the quality and sustainability of wild fish or fish products farmed through responsible aquaculture, particularly in Hawaii, Alaska, the Western Pacific, the Northern Pacific, and the Central Pacific;

(D) include programs to identify, with the fishing industry, methods and technologies that will improve the data collection, quality, and reporting and increase the sustainability of fishing practices, and to transfer such methods and technologies among fisheries sectors and to other nations in the Western, Northern, and Central Pacific;

(E) develop means by which local and traditional knowledge (including Pacific islander, Native Hawaiian, and Alaskan Native knowledge) can enhance science-based management of fishery resources of the region; and

(F) develop partnerships with other Western Pacific Island and Alaskan agencies, academic institutions, and other entities to meet the purposes of this section.

(k) Multispecies groundfish

(1) In general

Within 60 days after January 12, 2007, the Secretary of Commerce shall determine whether fishing in State waters—

(A) without a New England multispecies groundfish fishery permit on regulated species within the multispecies complex is not consistent with the applicable Federal fishery management plan; or

(B) without a Federal bottomfish and sea-mount groundfish permit in the Hawaiian archipelago on regulated species within the complex is not consistent with the applicable Federal fishery management plan or State data are not sufficient to make such a determination.

(2) Cure

If the Secretary makes a determination that such actions are not consistent with the plan, the Secretary shall, in consultation with the Council, and after notifying the affected State, develop and implement measures to cure the inconsistency pursuant to section 1856(b) of this title.

Subsec. (e). Pub. § 1856. State jurisdiction

(a) In general

(1) Except as provided in subsection (b) of this section, nothing in this chapter shall be construed as extending or diminishing the jurisdiction or authority of any State within its boundaries.

(2) For the purposes of this chapter, except as provided in subsection (b) of this section, the jurisdiction and authority of a State shall extend—

(A) to any pocket of waters that is adjacent to the State and totally enclosed by lines delimiting the territorial sea of the United States pursuant to the Geneva Convention on the Territorial Sea and Contiguous Zone or any successor convention to which the United States is a party;

(B) with respect to the body of water commonly known as Nantucket Sound, to the pocket of water west of the seventieth meridian west of Greenwich; and

(C) to the waters of southeastern Alaska (for the purpose of regulating fishing for other than any species of crab) that are—

(i) north of the line representing the international boundary at Dixon Entrance and the westward extension of that line; east of 138 degrees west longitude; and not more than three nautical miles seaward from the coast, from the lines extending from headland to headland across all bays, inlets, straits, passes, sounds, and entrances, and from any island or group of islands, including the islands of the Alexander Archipelago (except Forrester Island); or

(ii) between the islands referred to in clause (i) (except Forrester Island) and the mainland.

(3) A State may regulate a fishing vessel outside the boundaries of the State in the following circumstances:

(A) The fishing vessel is registered under the law of that State, and (i) there is no fishery management plan or other applicable Federal fishing regulations for the fishery in which the vessel is operating; or (ii) the State’s laws and regulations are consistent with the fishery management plan and applicable Federal fishing regulations for the fishery in which the vessel is operating.

(B) The fishery management plan for the fishery in which the fishing vessel is operating delegates management of the fishery to a State and the State’s laws and regulations are consistent with such fishery management plan. If at any time the Secretary determines that a State law or regulation applicable to a

fishing vessel under this circumstance is not consistent with the fishery management plan, the Secretary shall promptly notify the State and the appropriate Council of such determination and provide an opportunity for the State to correct any inconsistencies identified in the notification. If, after notice and opportunity for corrective action, the State does not correct the inconsistencies identified by the Secretary, the authority granted to the State under this subparagraph shall not apply until the Secretary and the appropriate Council find that the State has corrected the inconsistencies. For a fishery for which there was a fishery management plan in place on August 1, 1996 that did not delegate management of the fishery to a State as of that date, the authority provided by this subparagraph applies only if the Council approves the delegation of management of the fishery to the State by a three-quarters majority vote of the voting members of the Council.

(C) The fishing vessel is not registered under the law of the State of Alaska and is operating in a fishery in the exclusive economic zone off Alaska for which there was no fishery management plan in place on August 1, 1996, and the Secretary and the North Pacific Council find that there is a legitimate interest of the State of Alaska in the conservation and management of such fishery. The authority provided under this subparagraph shall terminate when a fishery management plan under this chapter is approved and implemented for such fishery.

(b) Exception

(1) If the Secretary finds, after notice and an opportunity for a hearing in accordance with section 554 of title 5, that—

(A) the fishing in a fishery, which is covered by a fishery management plan implemented under this chapter, is engaged in predominantly within the exclusive economic zone and beyond such zone; and

(B) any State has taken any action, or omitted to take any action, the results of which will substantially and adversely affect the carrying out of such fishery management plan;

the Secretary shall promptly notify such State and the appropriate Council of such finding and of his intention to regulate the applicable fishery within the boundaries of such State (other than its internal waters), pursuant to such fishery management plan and the regulations promulgated to implement such plan.

(2) If the Secretary, pursuant to this subsection, assumes responsibility for the regulation of any fishery, the State involved may at any time thereafter apply to the Secretary for reinstatement of its authority over such fishery. If the Secretary finds that the reasons for which he assumed such regulation no longer prevail, he shall promptly terminate such regulation.

(3) If the State involved requests that a hearing be held pursuant to paragraph (1), the Secretary shall conduct such hearing prior to taking any action under paragraph (1).

(c) Exception regarding foreign fish processing in internal waters

(1) A foreign fishing vessel may engage in fish processing within the internal waters of a State if, and only if—

(A) the vessel is qualified for purposes of this paragraph pursuant to paragraph (4)(C) or has received a permit under section 1824(d) of this title;

(B) the owner or operator of the vessel applies to the Governor of the State for, and (subject to paragraph (2)) is granted, permission for the vessel to engage in such processing and the application specifies the species to be processed; and

(C) the owner or operator of the vessel submits reports on the tonnage of fish received from vessels of the United States and the locations from which such fish were harvested, in accordance with such procedures as the Secretary by regulation shall prescribe.

(2) The Governor of a State may not grant permission for a foreign fishing vessel to engage in fish processing under paragraph (1)—

(A) for a fishery which occurs in the waters of more than one State or in the exclusive economic zone, except after—

(i) consulting with the appropriate Council and Marine Fisheries Commission, and

(ii) considering any comments received from the Governor of any other State where the fishery occurs; and

(B) if the Governor determines that fish processors within the State have adequate capacity, and will utilize such capacity, to process all of the United States harvested fish from the fishery concerned that are landed in the State.

(3) Nothing in this subsection may be construed as relieving a foreign fishing vessel from the duty to comply with all applicable Federal and State laws while operating within the internal waters of a State incident to permission obtained under paragraph (1)(B).

(4) For purposes of this subsection—

(A) The term “fish processing” includes, in addition to processing, the performance of any other activity relating to fishing, including, but not limited to, preparation, supply, storage, refrigeration, or transportation.

(B) The phrase “internal waters of a State” means all waters within the boundaries of a State except those seaward of the baseline from which the territorial sea is measured.

(C) A foreign fishing vessel shall be treated as qualified for purposes of paragraph (1) if the foreign nation under which it is flagged will be a party to (i) a governing international fishery agreement or (ii) a treaty described in section 1821(b) of this title during the time the vessel will engage in the fish processing for which permission is sought under paragraph (1)(B).

§ 1858. Civil penalties and permit sanctions

(a) Assessment of penalty

Any person who is found by the Secretary, after notice and an opportunity for a hearing in accordance with section 554 of title 5, to have committed an act prohibited by section 1857 of this title shall be liable to the United States for a civil penalty. The amount of the civil penalty shall not exceed \$100,000 for each violation. Each day of a continuing violation shall constitute a separate offense. The amount of such civil penalty shall be assessed by the Secretary, or his designee, by written notice. In determining the amount of such penalty, the Secretary shall take into account the nature, circumstances, extent, and gravity of the prohibited acts committed and, with respect to the violator, the degree of culpability, any history of prior offenses, and such other matters as justice may require. In assessing such penalty the Secretary may also consider any information provided by the violator relating to the ability of the violator to pay, *Provided*, That the information is served on the Secretary at least 30 days prior to an administrative hearing.

(b) Review of civil penalty

Any person against whom a civil penalty is assessed under subsection (a) of this section or against whom a permit sanction is imposed under subsection (g) of this section (other than a permit suspension for nonpayment of penalty or fine) may obtain review thereof in the United States district court for the appropriate district by filing a complaint against the Secretary in such court within 30 days from the date of such order. The Secretary shall promptly file in such court a certified copy of the record upon which such violation was found or such penalty imposed, as provided in section 2112 of title 28. The findings and order of the Secretary shall be set aside by such court if they are not found to be supported by substantial evidence, as provided in section 706(2) of title 5.

(c) Action upon failure to pay assessment

If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order, or after the appropriate court has entered final judgment in favor of the Secretary, the Secretary shall refer the matter to the Attorney General of the United States, who shall recover the amount assessed in any appropriate district court of the United States. In such action, the validity and appropriateness of the final order imposing the civil penalty shall not be subject to review.

(d) In rem jurisdiction

A fishing vessel (including its fishing gear, furniture, appurtenances, stores, and cargo) used in the commission of an act prohibited by section 1857 of this title shall be liable in rem for any civil penalty assessed for such violation under this section and may be proceeded against in any district court of the United States having jurisdiction thereof. Such penalty shall constitute a maritime lien on such vessel which

may be recovered in an action in rem in the district court of the United States having jurisdiction over the vessel.

(e) Compromise or other action by Secretary

The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty which is subject to imposition or which has been imposed under this section.

(f) Subpenas

For the purposes of conducting any hearing under this section, the Secretary may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States. In case of contempt or refusal to obey a subpoena served upon any person pursuant to this subsection, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Secretary or to appear and produce documents before the Secretary, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(g) Permit sanctions

(1) In any case in which (A) a vessel has been used in the commission of an act prohibited under section 1857 of this title, (B) the owner or operator of a vessel or any other person who has been issued or has applied for a permit under this chapter has acted in violation of section 1857 of this title, (C) any amount in settlement of a civil forfeiture imposed on a vessel or other property, or any civil penalty or criminal fine imposed on a vessel or owner or operator of a vessel or any other person who has been issued or has applied for a permit under any marine resource law enforced by the Secretary has not been paid and is overdue, or (D) any payment required for observer services provided to or contracted by an owner or operator who has been issued a permit or applied for a permit under any marine resource law administered by the Secretary has not been paid and is overdue, the Secretary may—

- (i) revoke any permit issued with respect to such vessel or person, with or without prejudice to the issuance of subsequent permits;
- (ii) suspend such permit for a period of time considered by the Secretary to be appropriate;
- (iii) deny such permit; or

(iv) impose additional conditions and restrictions on any permit issued to or applied for by such vessel or person under this chapter and, with respect to foreign fishing vessels, on the approved application of the foreign nation involved and on any permit issued under that application.

(2) In imposing a sanction under this subsection, the Secretary shall take into account—

- (A) the nature, circumstances, extent, and gravity of the prohibited acts for which the sanction is imposed; and

(B) with respect to the violator, the degree of culpability, any history of prior offenses, and such other matters as justice may require.

(3) Transfer of ownership of a vessel, by sale or otherwise, shall not extinguish any permit sanction that is in effect or is pending at the time of transfer of ownership. Before executing the transfer of ownership of a vessel, by sale or otherwise, the owner shall disclose in writing to the prospective transferee the existence of any permit sanction that will be in effect or pending with respect to the vessel at the time of the transfer.

(4) In the case of any permit that is suspended under this subsection for nonpayment of a civil penalty or criminal fine, the Secretary shall reinstate the permit upon payment of the penalty or fine and interest thereon at the prevailing rate.

(5) No sanctions shall be imposed under this subsection unless there has been a prior opportunity for a hearing on the facts underlying the violation for which the sanction is imposed, either in conjunction with a civil penalty proceeding under this section or otherwise.

Any fishing vessel (including its fishing gear, furniture, appurtenances, stores, and cargo) used, and any fish (or the fair market value thereof) taken or retained, in any manner, in connection with or as a result of the commission of any act prohibited by section 1857 of this title (other than any act for which the issuance of a citation under section 1861(c) of this title is sufficient sanction) shall be subject to forfeiture to the United States. All or part of such vessel may, and all such fish (or the fair market value thereof) shall, be forfeited to the United States pursuant to a civil proceeding under this section.

(b) Jurisdiction of district courts

Any district court of the United States which has jurisdiction under section 1861(d) of this title shall have jurisdiction, upon application by the Attorney General on behalf of the United States, to order any forfeiture authorized under subsection (a) of this section and any action provided for under subsection (d) of this section.

(c) Judgment

If a judgment is entered for the United States in a civil forfeiture proceeding under this section, the Attorney General may seize any property or other interest declared forfeited to the United States, which has not previously been seized pursuant to this chapter or for which security has not previously been obtained under subsection (d) of this section. The provisions of the customs laws relating to—

- (1) the seizure, forfeiture, and condemnation of property for violation of the customs law;
- (2) the disposition of such property or the proceeds from the sale thereof; and
- (3) the remission or mitigation of any such forfeiture;

The duties and powers imposed upon the Commissioner of Customs or other persons under such provisions shall, with respect to this chapter, be performed by officers or other persons designated for such purpose by the Secretary.

Such bond or other security shall be conditioned upon such person (i) delivering such property to the appropriate court upon order thereof, without any impairment of its value, or (ii) paying the monetary value of such property pursuant to an order of such court. Judgment shall be recoverable on such bond or other security against both the principal and any sureties in the event that any condition thereof is breached, as determined by such court. Nothing in this paragraph may be construed to require the Secretary, except in the Secretary’s discretion or pursuant to the order of a court under section 1861(d) of this title, to release on bond any seized fish or other property or the proceeds from the sale thereof.

(2) Any fish seized pursuant to this chapter may be sold, subject to the approval and direction of the appropriate court, for not less than the fair market value thereof. The proceeds of any such sale shall be deposited with such court pending the disposition of the matter involved.

(e) Rebuttable presumptions

(2) For purposes of this chapter, it shall be a rebuttable presumption that any fish of a species which spawns in fresh or estuarine waters and migrates to ocean waters that is found on board a vessel is of United States origin if the vessel is within the migratory range of the species during that part of the year to which the migratory range applies.

(3) For purposes of this chapter, it shall be a rebuttable presumption that any vessel that is shoreward of the outer boundary of the exclusive economic zone of the United States or beyond the exclusive economic zone of any nation, and that has gear on board that is capable of use for large-scale driftnet fishing, is engaged in such fishing.

Notwithstanding any other provision of this chapter, as soon as practicable but no later than 21 months after January 12, 2007, the Secretary shall implement data-sharing measures to make any data required to be provided by this chapter from satellite-based maritime distress and safety systems, vessel monitoring systems, or similar systems—

AGREEMENT TO MAKE MORE EFFECTIVE ENFORCEMENT OF DOMESTIC LAWS AND INTERNATIONAL AGREEMENTS

Pub. L. 102-582, title II, §202, Nov. 2, 1992, 106 Stat. 4905, provided that not later than six months after Nov. 2, 1992, the Secretary of the department in which the Coast Guard is operating, the Secretary of Commerce, and the Secretary of Defense were to enter into an agreement under subsec. (a) of this section to make more effective the enforcement of domestic laws and international agreements that conserve and manage living marine resources of the United States.

§ 1861a. Transition to sustainable fisheries

(a) Fisheries disaster relief

(1) At the discretion of the Secretary or at the request of the Governor of an affected State or a fishing community, the Secretary shall determine whether there is a commercial fishery failure due to a fishery resource disaster as a result of—

(A) natural causes;

(B) man-made causes beyond the control of fishery managers to mitigate through conservation and management measures, including regulatory restrictions (including those imposed as a result of judicial action) imposed to protect human health or the marine environment; or

(C) undetermined causes.

(2) Upon the determination under paragraph (1) that there is a commercial fishery failure, the Secretary is authorized to make sums available to be used by the affected State, fishing community, or by the Secretary in cooperation with the affected State or fishing community for assessing the economic and social effects of the commercial fishery failure, or any activity that the Secretary determines is appropriate to restore the fishery or prevent a similar failure in the future and to assist a fishing community affected by such failure. Before making funds available for an activity authorized under this section, the Secretary shall make a determination that such activity will not expand the size or scope of the commercial fishery failure in that fishery or into other fisheries or other geographic regions.

(3) The Federal share of the cost of any activity carried out under the authority of this subsection shall not exceed 75 percent of the cost of that activity.

(4) There are authorized to be appropriated to the Secretary such sums as are necessary for each of the fiscal years 2007 through 2013.

(b) Fishing capacity reduction program

(1) The Secretary, at the request of the appropriate Council for fisheries under the authority of such Council, the Governor of a State for fisheries under State authority, or a majority of permit holders in the fishery, may conduct a voluntary fishing capacity reduction program (referred to in this section as the "program") in a fishery if the Secretary determines that the program—

(A) is necessary to prevent or end overfishing, rebuild stocks of fish, or achieve measurable and significant improvements in the conservation and management of the fishery;

(B) is consistent with the Federal or State fishery management plan or program in effect for such fishery, as appropriate, and that the fishery management plan—

(i) will prevent the replacement of fishing capacity removed by the program through a moratorium on new entrants, practicable restrictions on vessel upgrades, and other effort control measures, taking into account the full potential fishing capacity of the fleet; and

(ii) establishes a specified or target total allowable catch or other measures that trig-

ger closure of the fishery or adjustments to reduce catch; and

(C) is cost-effective and, in the instance of a program involving an industry fee system, prospectively capable of repaying any debt obligation incurred under section 53735 of title 46.

(2) The objective of the program shall be to obtain the maximum sustained reduction in fishing capacity at the least cost and in a minimum period of time. To achieve that objective, the Secretary is authorized to pay—

(A) the owner of a fishing vessel, if the permit authorizing the participation of the vessel in the fishery is surrendered for permanent revocation and the vessel owner and permit holder relinquish any claim associated with the vessel or permit that could qualify such owner or holder for any present or future limited access system permit in the fishery for which the program is established or in any other fishery and such vessel is (i) scrapped, or (ii) through the Secretary of the department in which the Coast Guard is operating, subjected to title restrictions (including loss of the vessel's fisheries endorsement) that permanently prohibit and effectively prevent its use in fishing in federal¹ or state¹ waters, or fishing on the high seas or in the waters of a foreign nation; or

(B) the holder of a permit authorizing participation in the fishery, if such permit is surrendered for permanent revocation, and such holder relinquishes any claim associated with the permit and vessel used to harvest fishery resources under the permit that could qualify such holder for any present or future limited access system permit in the fishery for which the program was established.

(3) Participation in the program shall be voluntary, but the Secretary shall ensure compliance by all who do participate.

(4) The harvester proponents of each program and the Secretary shall consult, as appropriate and practicable, with Councils, Federal agencies, State and regional authorities, affected fishing communities, participants in the fishery, conservation organizations, and other interested parties throughout the development and implementation of any program under this section.

(5) PAYMENT CONDITION.—The Secretary may not make a payment under paragraph (2) with respect to a vessel that will not be scrapped unless the Secretary certifies that the vessel will not be used for fishing in the waters of a foreign nation or fishing on the high seas.

(6) REPORT.—

(A) IN GENERAL.—Subject to the availability of funds, the Secretary shall, within 12 months after January 12, 2007, submit to the Congress a report—

(i) identifying and describing the 20 fisheries in United States waters with the most severe examples of excess harvesting capacity in the fisheries, based on value of each fishery and the amount of excess harvesting capacity as determined by the Secretary;

(ii) recommending measures for reducing such excess harvesting capacity, including

the retirement of any latent fishing permits that could contribute to further excess harvesting capacity in those fisheries; and

(iii) potential sources of funding for such measures.

(B) BASIS FOR RECOMMENDATIONS.—The Secretary shall base the recommendations made with respect to a fishery on—

(i) the most cost effective means of achieving voluntary reduction in capacity for the fishery using the potential for industry financing; and

(ii) including measures to prevent the capacity that is being removed from the fishery from moving to other fisheries in the United States, in the waters of a foreign nation, or on the high seas.

(c) Program funding

(1) The program may be funded by any combination of amounts—

(A) available under clause (iv) of section 713c-3(b)(1)(A) of title 15;

(B) appropriated for the purposes of this section;

(C) provided by an industry fee system established under subsection (d) of this section and in accordance with section 53735 of title 46; or

(D) provided from any State or other public sources or private or non-profit organizations.

(2) All funds for the program, including any fees established under subsection (d) of this section, shall be paid into the fishing capacity reduction fund established under section 53735 of title 46.

(d) Industry fee system

(1)(A) If an industry fee system is necessary to fund the program, the Secretary may conduct a referendum on such system. Prior to the referendum, the Secretary shall—

(i) identify, to the extent practicable, and notify all permit or vessel owners who would be affected by the program; and

(ii) make available to such owners information about the industry fee system describing the schedule, procedures, and eligibility requirements for the referendum, the proposed program, and the amount and duration and any other terms and conditions of the proposed fee system.

(B) The industry fee system shall be considered approved if the referendum votes which are cast in favor of the proposed system constitute at least a majority of the permit holders in the fishery, or 50 percent of the permitted allocation of the fishery, who participated in the fishery.

(2) Notwithstanding section 1854(d) of this title and consistent with an approved industry fee system, the Secretary is authorized to establish such a system to fund the program and repay debt obligations incurred pursuant to section 53735 of title 46. The fees for a program established under this section shall—

(A) be determined by the Secretary and adjusted from time to time as the Secretary considers necessary to ensure the availability of sufficient funds to repay such debt obligations;

¹ So in original. Probably should be capitalized.

(B) not exceed 5 percent of the ex-vessel value of all fish harvested from the fishery for which the program is established;

(C) be deducted by the first ex-vessel fish purchaser from the proceeds otherwise payable to the seller and accounted for and forwarded by such fish purchasers to the Secretary in such manner as the Secretary may establish, unless the Secretary determines that such fees should be collected from the seller; and

(D) be in effect only until such time as the debt obligation has been fully paid.

(e) Implementation plan

(1) Framework regulations

The Secretary shall propose and adopt framework regulations applicable to the implementation of all programs under this section.

(2) Program regulations

The Secretary shall implement each program under this section by promulgating regulations that, together with the framework regulations, establish each program and control its implementation.

(3) Harvester proponents' implementation plan

The Secretary may not propose implementation regulations for a program to be paid for by an industry fee system until the harvester proponents of the program provide to the Secretary a proposed implementation plan that, among other matters—

(A) proposes the types and numbers of vessels or permits that are eligible to participate in the program and the manner in which the program shall proceed, taking into account—

- (i) the requirements of this section;
- (ii) the requirements of the framework regulations;
- (iii) the characteristics of the fishery and affected fishing communities;
- (iv) the requirements of the applicable fishery management plan and any amendment that such plan may require to support the proposed program;
- (v) the general needs and desires of harvesters in the fishery;
- (vi) the need to minimize program costs; and
- (vii) other matters, including the manner in which such proponents propose to fund the program to ensure its cost effectiveness, as well as any relevant factors demonstrating the potential for, or necessary to obtain, the support and general cooperation of a substantial number of affected harvesters in the fishery (or portion of the fishery) for which the program is intended; and

(B) proposes procedures for program participation (such as submission of owner bids under an auction system or fair market-value assessment), including any terms and conditions for participation, that the harvester proponents deem to be reasonably necessary to meet the program's proposed objectives.

(4) Participation contracts

The Secretary shall contract with each person participating in a program, and each such

contract shall, in addition to including such other matters as the Secretary deems necessary and appropriate to effectively implement each program (including penalties for contract non-performance) be consistent with the framework and implementing regulations and all other applicable law.

(5) Reduction auctions

Each program not involving fair market assessment shall involve a reduction auction that scores the reduction price of each bid offer by the data relevant to each bidder under an appropriate fisheries productivity factor. If the Secretary accepts bids, the Secretary shall accept responsive bids in the rank order of their bid scores, starting with the bid whose reduction price is the lowest percentage of the productivity factor, and successively accepting each additional responsive bid in rank order until either there are no more responsive bids or acceptance of the next bid would cause the total value of bids accepted to exceed the amount of funds available for the program.

(6) Bid invitations

Each program shall proceed by the Secretary issuing invitations to bid setting out the terms and conditions for participation consistent with the framework and implementing regulations. Each bid that the Secretary receives in response to the invitation to bid shall constitute an irrevocable offer from the bidder.

CODIFICATION

Section was enacted as part of the Coast Guard and Maritime Transportation Act of 2004, and not as part of the Magnuson-Stevens Fishery Conservation and Management Act which comprises this chapter.

§ 1862. North Pacific fisheries conservation

(a) In general

The North Pacific Council may prepare, in consultation with the Secretary, a fisheries research plan for any fishery under the Council’s jurisdiction except a salmon fishery which—

(1) requires that observers be stationed on fishing vessels engaged in the catching, taking, or harvesting of fish and on United States fish processors fishing for or processing species under the jurisdiction of the Council, including the Northern Pacific halibut fishery, for the purpose of collecting data necessary for the conservation, management, and scientific understanding of any fisheries under the Council’s jurisdiction; and

(2) establishes a system, or system,¹ of fees, which may vary by fishery, management area, or observer coverage level, to pay for the cost of implementing the plan.

(b) Standards

(1) Any plan or plan amendment prepared under this section shall be reasonably calculated to—

(A) gather reliable data, by stationing observers on all or a statistically reliable sample of the fishing vessels and United States fish processors included in the plan, necessary for the conservation, management, and scientific understanding of the fisheries covered by the plan;

(B) be fair and equitable to all vessels and processors;

(C) be consistent with applicable provisions of law; and

(D) take into consideration the operating requirements of the fisheries and the safety of observers and fishermen.

(2) Any system of fees established under this section shall—

(A) provide that the total amount of fees collected under this section not exceed the combined cost of (i) stationing observers, or

¹ So in original.

electronic monitoring systems, on board fishing vessels and United States fish processors, (ii) the actual cost of inputting collected data, and (iii) assessments necessary for a risk-sharing pool implemented under subsection (e) of this section, less any amount received for such purpose from another source or from an existing surplus in the North Pacific Fishery Observer Fund established in subsection (d) of this section;

(B) be fair and equitable to all participants in the fisheries under the jurisdiction of the Council, including the Northern Pacific halibut fishery;

(C) provide that fees collected not be used to pay any costs of administrative overhead or other costs not directly incurred in carrying out the plan;

(D) not be used to offset amounts authorized under other provisions of law;

(E) be expressed as a fixed amount reflecting actual observer costs as described in subparagraph (A) or a percentage, not to exceed 2 percent, of the unprocessed ex-vessel value of fish and shellfish harvested under the jurisdiction of the Council, including the Northern Pacific halibut fishery;

(F) be assessed against some or all fishing vessels and United States fish processors, including those not required to carry an observer or an electronic monitoring system under the plan, participating in fisheries under the jurisdiction of the Council, including the Northern Pacific halibut fishery;

(G) provide that fees collected will be deposited in the North Pacific Fishery Observer Fund established under subsection (d) of this section;

(H) provide that fees collected will only be used for implementing the plan established under this section;

(I) provide that fees collected will be credited against any fee for stationing observers or electronic monitoring systems on board fishing vessels and United States fish processors and the actual cost of inputting collected data to which a fishing vessel or fish processor is subject under section 1854(d) of this title; and

(J) meet the requirements of section 9701(b) of title 31.

(c) Action by Secretary

(1) Within 60 days after receiving a plan or plan amendment from the North Pacific Council under this section, the Secretary shall review such plan or plan amendment and either (A) remand such plan or plan amendment to the Council with comments if it does not meet the requirements of this section, or (B) publish in the Federal Register proposed regulations for implementing such plan or plan amendment.

(2) During the 60-day public comment period, the Secretary shall conduct a public hearing in each State represented on the Council for the purpose of receiving public comments on the proposed regulations.

(3) Within 45 days of the close of the public comment period, the Secretary, in consultation with the Council, shall analyze the public comment received and publish final regulations for implementing such plan.

(4) If the Secretary remands a plan or plan amendment to the Council for failure to meet the requirements of this section, the Council may resubmit such plan or plan amendment at any time after taking action the Council believes will address the defects identified by the Secretary. Any plan or plan amendment resubmitted to the Secretary will be treated as an original plan submitted to the Secretary under paragraph (1) of this subsection.

(d) Fishery Observer Fund

There is established in the Treasury a North Pacific Fishery Observer Fund. The Fund shall be available, without appropriation or fiscal year limitation, only to the Secretary for the purpose of carrying out the provisions of this section, subject to the restrictions in subsection (b)(2) of this section. The Fund shall consist of all monies deposited into it in accordance with this section. Sums in the Fund that are not currently needed for the purposes of this section shall be kept on deposit or invested in obligations of, or guaranteed by, the United States.

(e) Special provisions regarding observers

(1) The Secretary shall review—

(A) the feasibility of establishing a risk sharing pool through a reasonable fee, subject to the limitations of subsection (b)(2)(E) of this section, to provide coverage for vessels and owners against liability from civil suits by observers, and

(B) the availability of comprehensive commercial insurance for vessel and owner liability against civil suits by observers.

(2) If the Secretary determines that a risk sharing pool is feasible, the Secretary shall establish such a pool, subject to the provisions of subsection (b)(2) of this section, unless the Secretary determines that—

(A) comprehensive commercial insurance is available for all fishing vessels and United States fish processors required to have observers under the provisions of this section, and

(B) such comprehensive commercial insurance will provide a greater measure of coverage at a lower cost to each participant.

(f) Bycatch reduction

In implementing section 1853(a)(11) of this title and this section, the North Pacific Council shall submit conservation and management measures to lower, on an annual basis for a period of not less than four years, the total amount of economic discards occurring in the fisheries under its jurisdiction.

(g) Bycatch reduction incentives

(1) Notwithstanding section 1854(d) of this title, the North Pacific Council may submit, and the Secretary may approve, consistent with the provisions of this chapter, a system of fines in a fishery to provide incentives to reduce bycatch and bycatch rates; except that such fines shall not exceed \$25,000 per vessel per season. Any fines collected shall be deposited in the North Pacific Fishery Observer Fund, and may be made available by the Secretary to offset costs related to the reduction of bycatch in the fishery from which such fines were derived, including conservation and management measures and

research, and to the State of Alaska to offset costs incurred by the State in the fishery from which such penalties were derived or in fisheries in which the State is directly involved in management or enforcement and which are directly affected by the fishery from which such penalties were derived.

(2)(A) Notwithstanding section 1853(d) of this title, and in addition to the authority provided in section 1853(b)(10) of this title, the North Pacific Council may submit, and the Secretary may approve, conservation and management measures which provide allocations of regulatory discards to individual fishing vessels as an incentive to reduce per vessel bycatch and bycatch rates in a fishery, *Provided, That*—

(i) such allocations may not be transferred for monetary consideration and are made only on an annual basis; and

(ii) any such conservation and management measures will meet the requirements of subsection (h) of this section and will result in an actual reduction in regulatory discards in the fishery.

(B) The North Pacific Council may submit restrictions in addition to the restriction imposed by clause (i) of subparagraph (A) on the transferability of any such allocations, and the Secretary may approve such recommendation.

(h) Catch measurement

(1) By June 1, 1997 the North Pacific Council shall submit, and the Secretary may approve, consistent with the other provisions of this chapter, conservation and management measures to ensure total catch measurement in each fishery under the jurisdiction of such Council. Such measures shall ensure the accurate enumeration, at a minimum, of target species, economic discards, and regulatory discards.

(2) To the extent the measures submitted under paragraph (1) do not require United States fish processors and fish processing vessels (as defined in chapter 21 of title 46) to weigh fish, the North Pacific Council and the Secretary shall submit a plan to the Congress by January 1, 1998, to allow for weighing, including recommendations to assist such processors and processing vessels in acquiring necessary equipment, unless the Council determines that such weighing is not necessary to meet the requirements of this subsection.

(i) Full retention and utilization

(1) The North Pacific Council shall submit to the Secretary by October 1, 1998 a report on the advisability of requiring the full retention by fishing vessels and full utilization by United States fish processors of economic discards in fisheries under its jurisdiction if such economic discards, or the mortality of such economic discards, cannot be avoided. The report shall address the projected impacts of such requirements on participants in the fishery and describe any full retention and full utilization requirements that have been implemented.

(2) The report shall address the advisability of measures to minimize processing waste, including standards setting minimum percentages which must be processed for human consumption. For the purpose of the report, “processing

waste” means that portion of any fish which is processed and which could be used for human consumption or other commercial use, but which is not so used.

(j) Bering Sea and Aleutian Islands crab rationalization

(1) By not later than January 1, 2005, the Secretary shall approve and hereafter² implement by regulation the Voluntary Three-Pie Cooperative Program for crab fisheries of the Bering Sea and Aleutian Islands approved by the North Pacific Fishery Management Council between June 2002 and April 2003, and all trailing amendments including those reported to Congress on May 6, 2003. This section shall not preclude the Secretary from approving by January 1, 2005, and implementing any subsequent program amendments approved by the Council.

(2) Notwithstanding any other provision of this chapter, in carrying out paragraph (1) the Secretary shall approve all parts of the Program referred to in such paragraph. Further, no part of such Program may be implemented if, as approved by the North Pacific Fishery Management Council, individual fishing quotas, processing quotas, community development quota allocation, voluntary cooperatives, binding arbitration, regional landing and processing requirements, community protections, economic data collection, or the loan program for crab fishing vessel captains and crew members, is invalidated subject to a judicial determination not subject to judicial appeal. If the Secretary determines that a processor has leveraged its Individual Processor Quota shares to acquire a harvesters open-delivery “B shares”, the processor’s Individual Processor Quota shares shall be forfeited.

(3) Subsequent to implementation pursuant to paragraph (1), the Council may submit and the Secretary may implement changes to or repeal of conservation and management measures, including measures authorized in this section, for crab fisheries of the Bering Sea and Aleutian Islands in accordance with applicable law, including this chapter as amended by this subsection, to achieve on a continuing basis the purposes identified by the Council.

(4) The loan program referred to in paragraph (2) shall be carried out pursuant to the authority of sections 53735 and 53702(b) of title 46.

(5) For purposes of implementing this section \$1,000,000 shall be made available each year until fully implemented from funds otherwise made available to the National Marine Fisheries Service for Alaska fisheries activities.

§ 1864. Regional coastal disaster assistance, transition, and recovery program

(a) In general

When there is a catastrophic regional fishery disaster the Secretary may, upon the request of,

and in consultation with, the Governors of affected States, establish a regional economic transition program to provide immediate disaster relief assistance to the fishermen, charter fishing operators, United States fish processors, and owners of related fishery infrastructure affected by the disaster.

(b) Program components

(1) In general

Subject to the availability of appropriations, the program shall provide funds or other economic assistance to affected entities, or to governmental entities for disbursement to affected entities, for—

(A) meeting immediate regional shoreside fishery infrastructure needs, including processing facilities, cold storage facilities, ice houses, docks, including temporary docks and storage facilities, and other related shoreside fishery support facilities and infrastructure while ensuring that those projects will not result in an increase or replacement of fishing capacity;

(B) financial assistance and job training assistance for fishermen who wish to remain in a fishery in the region that may be temporarily closed as a result of environmental or other effects associated with the disaster;

(C) funding, pursuant to the requirements of section 1861a(b) of this title, to fishermen who are willing to scrap a fishing vessel and permanently surrender permits for fisheries named on that vessel; and

(D) any other activities authorized under section 1861a of this title or section 4107(d) of this title.

(2) Job training

Any fisherman who decides to scrap a fishing vessel under the program shall be eligible for job training assistance.

(3) State participation obligation

The participation by a State in the program shall be conditioned upon a commitment by the appropriate State entity to ensure that the relevant State fishery meets the requirements of section 1861a(b) of this title to ensure excess capacity does not re-enter the fishery.

(4) No matching required

The Secretary may waive the matching requirements of section 1861a of this title, section 4107 of this title, and any other provision of law under which the Federal share of the cost of any activity is limited to less than 100 percent if the Secretary determines that—

(A) no reasonable means are available through which applicants can meet the matching requirement; and

(B) the probable benefit of 100 percent Federal financing outweighs the public interest in imposition of the matching requirement.

(5) Net revenue limit inapplicable

Section 4107(d)(3) of this title shall not apply to assistance under this section.

(c) Regional impact evaluation

Within 2 months after a catastrophic regional fishery disaster the Secretary shall provide the Governor of each State participating in the pro-

gram a comprehensive economic and socio-economic evaluation of the affected region's fisheries to assist the Governor in assessing the current and future economic viability of affected fisheries, including the economic impact of foreign fish imports and the direct, indirect, or environmental impact of the disaster on the fishery and coastal communities.

(d) Catastrophic regional fishery disaster defined

In this section the term "catastrophic regional fishery disaster" means a natural disaster, including a hurricane or tsunami, or a regulatory closure (including regulatory closures resulting from judicial action) to protect human health or the marine environment, that—

- (1) results in economic losses to coastal or fishing communities;
- (2) affects more than 1 State or a major fishery managed by a Council or interstate fishery commission; and
- (3) is determined by the Secretary to be a commercial fishery failure under section 1861a(a) of this title or a fishery resource disaster or section 4107(d) of this title.

"(b) ALLOCATION OF FUNDS.—Under the program, the Secretary shall allocate funds appropriated to carry out the program among the States of Alabama, Louisiana, Florida, Mississippi, and Texas in proportion to the percentage of the fishery (including crawfish) catch landed by each State before August 29, 2005, except that the amount allocated to Florida shall be based exclusively on the proportion of such catch landed by the Florida Gulf Coast fishery.

"(c) USE OF FUNDS.—Of the amounts made available to each State under the program—

"(1) 2 percent shall be retained by the State to be used for the distribution of additional payments to fishermen with a demonstrated record of compliance with turtle excluder and bycatch reduction device regulations; and

"(2) the remainder of the amounts shall be used for—

"(A) personal assistance, with priority given to food, energy needs, housing assistance, transportation fuel, and other urgent needs;

(10) include procedures necessary to ensure—

(A) the confidentiality of information collected under this section in accordance with section 1881a(b) of this title; and

(B) the timely release or availability to the public of information collected under this section consistent with section 1881a(b) of this title.

(b) Fishing vessel registration

The proposed registration system should, at a minimum, obtain the following information for each fishing vessel—

(1) the name and official number or other identification, together with the name and address of the owner or operator or both;

(2) gross tonnage, vessel capacity, type and quantity of fishing gear, mode of operation (catcher, catcher processor, or other), and such other pertinent information with respect to vessel characteristics as the Secretary may require; and

(e) Public comment

Within one year after October 11, 1996, the Secretary shall publish in the Federal Register for

¹ So in original. Probably should be "section".

a 60-day public comment period a proposal that would provide for implementation of a standardized fishing vessel registration and information collection system that meets the requirements of subsections (a) through (c) of this section. The proposal shall include—

(2) State programs

The Secretary shall exempt from registration under the program recreational fishermen and charter fishing vessels licensed, permitted, or registered under the laws of a State if the Secretary determines that information from the State program is suitable for the Secretary's use or is used to assist in completing marine recreational fisheries statistical surveys, or evaluating the effects of proposed conservation and management measures for marine recreational fisheries.

(3) Data collection

(A) Improvement of the marine recreational fishery statistics survey

Within 24 months after January 12, 2007, the Secretary, in consultation with representatives of the recreational fishing industry and experts in statistics, technology, and other appropriate fields, shall establish a program to improve the quality and accuracy of information generated by the Marine Recreational Fishery Statistics Survey, with a goal of achieving acceptable accuracy and utility for each individual fishery.

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 1881a. Information collection

(a) Collection programs

(1) Council requests

If a Council determines that additional information would be beneficial for developing, implementing, or revising a fishery management plan or for determining whether a fishery is in need of management, the Council may request that the Secretary implement an information collection program for the fishery which would provide the types of information specified by the Council. The Secretary shall undertake such an information collection program if he determines that the need is justified, and shall promulgate regulations to implement the program within 60 days after such determination is made. If the Secretary determines that the need for an information collection program is not justified, the Secretary shall inform the Council of the reasons for such determination in writing. The determinations of the Secretary under this paragraph regarding a Council request shall be made within a reasonable period of time after receipt of that request.

(2) Secretarial initiation

If the Secretary determines that additional information is necessary for developing, implementing, revising, or monitoring a fishery management plan, or for determining whether a fishery is in need of management, the Secretary may, by regulation, implement an information collection or observer program requiring submission of such additional information for the fishery.

(b) Confidentiality of information

(1) Any information submitted to the Secretary, a State fishery management agency, or a marine fisheries commission by any person in compliance with the requirements of this chapter shall be confidential and shall not be disclosed except—

(A) to Federal employees and Council employees who are responsible for fishery management plan development, monitoring, or enforcement;

(B) to State or Marine Fisheries Commission employees as necessary to further the Department’s mission, subject to a confidentiality agreement that prohibits public disclosure of the identity of business of any person;

(C) to State employees who are responsible for fishery management plan enforcement, if the States employing those employees have entered into a fishery enforcement agreement with the Secretary and the agreement is in effect;

(D) when required by court order;

(E) when such information is used by State, Council, or Marine Fisheries Commission employees to verify catch under a limited access program, but only to the extent that such use is consistent with subparagraph (B);

(F) when the Secretary has obtained written authorization from the person submitting such information to release such information to persons for reasons not otherwise provided for in this subsection, and such release does not violate other requirements of this chapter;

(G) when such information is required to be submitted to the Secretary for any determination under a limited access program; or

(H) in support of homeland and national security activities, including the Coast Guard’s homeland security missions as defined in section 468(a)(2) of title 6.

(2) Any observer information shall be confidential and shall not be disclosed, except in accordance with the requirements of subparagraphs (A) through (H) of paragraph (1), or—

(A) as authorized by a fishery management plan or regulations under the authority of the North Pacific Council to allow disclosure to the public of weekly summary bycatch information identified by vessel or for haul-specific bycatch information without vessel identification;

(B) when such information is necessary in proceedings to adjudicate observer certifications; or

(C) as authorized by any regulations issued under paragraph (3) allowing the collection of observer information, pursuant to a confidentiality agreement between the observers, observer employers, and the Secretary prohibit-

ing disclosure of the information by the observers or observer employers, in order—

(i) to allow the sharing of observer information among observers and between observers and observer employers as necessary to train and prepare observers for deployments on specific vessels; or

(ii) to validate the accuracy of the observer information collected.

(3) The Secretary shall, by regulation, prescribe such procedures as may be necessary to preserve the confidentiality of information submitted in compliance with any requirement or regulation under this chapter, except that the Secretary may release or make public any such information in any aggregate or summary form which does not directly or indirectly disclose the identity or business of any person who submits such information. Nothing in this subsection shall be interpreted or construed to prevent the use for conservation and management purposes by the Secretary, or with the approval of the Secretary, the Council, of any information submitted in compliance with any requirement or regulation under this chapter or the use, release, or publication of bycatch information pursuant to paragraph (2)(A).

(c) Restriction on use of certain information

(1) The Secretary shall promulgate regulations to restrict the use, in civil enforcement or criminal proceedings under this chapter, the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.), and the Endangered Species Act (16 U.S.C. 1531 et seq.), of information collected by voluntary fishery data collectors, including sea samplers, while aboard any vessel for conservation and management purposes if the presence of such a fishery data collector aboard is not required by any of such chapter or Acts or regulations thereunder.

(2) The Secretary may not require the submission of a Federal or State income tax return or statement as a prerequisite for issuance of a permit until such time as the Secretary has promulgated regulations to ensure the confidentiality of information contained in such return or statement, to limit the information submitted to that necessary to achieve a demonstrated conservation and management purpose, and to provide appropriate penalties for violation of such regulations.

(d) Contracting authority

Notwithstanding any other provision of law, the Secretary may provide a grant, contract, or other financial assistance on a sole-source basis to a State, Council, or Marine Fisheries Commission for the purpose of carrying out information collection or other programs if—

(1) the recipient of such a grant, contract, or other financial assistance is specified by statute to be, or has customarily been, such State, Council, or Marine Fisheries Commission; or

(2) the Secretary has entered into a cooperative agreement with such State, Council, or Marine Fisheries Commission.

(e) Resource assessments

(1) The Secretary may use the private sector to provide vessels, equipment, and services necessary to survey the fishery resources of the

United States when the arrangement will yield statistically reliable results.

(2) The Secretary, in consultation with the appropriate Council and the fishing industry—

(A) may structure competitive solicitations under paragraph (1) so as to compensate a contractor for a fishery resources survey by allowing the contractor to retain for sale fish harvested during the survey voyage;

(B) in the case of a survey during which the quantity or quality of fish harvested is not expected to be adequately compensatory, may structure those solicitations so as to provide that compensation by permitting the contractor to harvest on a subsequent voyage and retain for sale a portion of the allowable catch of the surveyed fishery; and

(C) may permit fish harvested during such survey to count toward a vessel's catch history under a fishery management plan if such survey was conducted in a manner that precluded a vessel's participation in a fishery that counted under the plan for purposes of determining catch history.

(3) The Secretary shall undertake efforts to expand annual fishery resource assessments in all regions of the Nation.

“(c) BYCATCH DEFINED.—In this section the term ‘bycatch’ has the meaning given that term in section 3 of the Magnuson-Stevens Fishery Conservation and Management Act [16 U.S.C. 1802], as amended by section 102 of this Act.”

§ 1881d. Incidental harvest research

(a) Collection of information

Within nine months after October 11, 1996, the Secretary shall, after consultation with the Gulf Council and South Atlantic Council, conclude the collection of information in the program to assess the impact on fishery resources of incidental harvest by the shrimp trawl fishery within the authority of such Councils. Within the same time period, the Secretary shall make available to the public aggregated summaries of information collected prior to June 30, 1994 under such program.

(b) Identification of stock

The program concluded pursuant to subsection (a) of this section shall provide for the identification of stocks of fish which are subject to significant incidental harvest in the course of normal shrimp trawl fishing activity.

(c) Collection and assessment of specific stock information

For stocks of fish identified pursuant to subsection (b) of this section, with priority given to stocks which (based upon the best available scientific information) are considered to be overfished, the Secretary shall conduct—

(1) a program to collect and evaluate information on the nature and extent (including the spatial and temporal distribution) of incidental mortality of such stocks as a direct result of shrimp trawl fishing activities;

(3) a program of information collection and evaluation for such stocks on the magnitude and distribution of fishing mortality and fishing effort by sources of fishing mortality other than shrimp trawl fishing activity.

(d) Bycatch reduction program

Not later than 12 months after October 11, 1996, the Secretary shall, in cooperation with affected interests, and based upon the best scientific information available, complete a program to—

(1) develop technological devices and other changes in fishing operations necessary and appropriate to minimize the incidental mortality of bycatch in the course of shrimp trawl activity to the extent practicable, taking into

account the level of bycatch mortality in the fishery on November 28, 1990;

(2) evaluate the ecological impacts and the benefits and costs of such devices and changes in fishing operations; and

(3) assess whether it is practicable to utilize bycatch which is not avoidable.

(e) Report to Congress

The Secretary shall, within one year of completing the programs required by this section, submit a detailed report on the results of such programs to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives.

(f) Implementation criteria

To the extent practicable, any conservation and management measure implemented under this chapter to reduce the incidental mortality of bycatch in the course of shrimp trawl fishing shall be consistent with—

(1) Within 30 days of October 11, 1996, the Secretary shall initiate an independent peer review to evaluate—

(A) the accuracy and adequacy of fishery statistics used by the Secretary for the red snapper fishery in the Gulf of Mexico to account for all commercial, recreational, and charter fishing harvests and fishing effort on the stock;

(B) the appropriateness of the scientific methods, information, and models used by the Secretary to assess the status and trends of the Gulf of Mexico red snapper stock and as the basis for the fishery management plan for the Gulf of Mexico red snapper fishery;

(C) the appropriateness and adequacy of the management measures in the fishery management plan for red snapper in the Gulf of Mexico for conserving and managing the red snapper fishery under this chapter; and

(D) the costs and benefits of all reasonable alternatives to a limited access privilege program for the red snapper fishery in the Gulf of Mexico.

(2) The Secretary shall ensure that commercial, recreational, and charter fishermen in the red snapper fishery in the Gulf of Mexico are provided an opportunity to—

(A) participate in the peer review under this subsection; and

(B) provide information to the Secretary concerning the review of fishery statistics

under this subsection without being subject to penalty under this chapter or other applicable law for any past violation of a requirement to report such information to the Secretary.

(3) The Secretary shall submit a detailed written report on the findings of the peer review conducted under this subsection to the Gulf Council no later than one year after October 11, 1996.

(b) Prohibition

In addition to the restrictions under section 1853(d)(1)(A) of this title, the Gulf Council may not, prior to October 1, 2002, undertake or continue the preparation of any fishery management plan, plan amendment or regulation under this chapter for the Gulf of Mexico commercial red snapper fishery that creates an individual fishing quota program or that authorizes the consolidation of licenses, permits, or endorsements that result in different trip limits for vessels in the same class.

(c) Referendum

(1) On or after October 1, 2002, the Gulf Council may prepare and submit a fishery management plan, plan amendment, or regulation for the Gulf of Mexico commercial red snapper fishery that creates a limited access privilege program or that authorizes the consolidation of licenses, permits, or endorsements that result in different trip limits for vessels in the same class, only if the preparation of such plan, amendment, or regulation is approved in a referendum conducted under paragraph (2) and only if the submission to the Secretary of such plan, amendment, or regulation is approved in a subsequent referendum conducted under paragraph (2).

(2) The Secretary, at the request of the Gulf Council, shall conduct referendums under this subsection. Only a person who held an annual vessel permit with a red snapper endorsement for such permit on September 1, 1996 (or any person to whom such permit with such endorsement was transferred after such date) and vessel captains who harvested red snapper in a commercial fishery using such endorsement in each red snapper fishing season occurring between January 1, 1993, and such date may vote in a referendum under this subsection. The referendum shall be decided by a majority of the votes cast. The Secretary shall develop a formula to weigh votes based on the proportional harvest under each such permit and endorsement and by each such captain in the fishery between January 1, 1993, and September 1, 1996. Prior to each referendum, the Secretary, in consultation with the Council, shall—

(A) identify and notify all such persons holding permits with red snapper endorsements and all such vessel captains; and

(B) make available to all such persons and vessel captains information about the schedule, procedures, and eligibility requirements for the referendum and the proposed individual fishing quota program.

(d) Catch limits

Any fishery management plan, plan amendment, or regulation submitted by the Gulf Council for the red snapper fishery after October 11, 1996, shall contain conservation and management measures that—

(1) establish separate quotas for recreational fishing (which, for the purposes of this subsection shall include charter fishing) and commercial fishing that, when reached, result in a prohibition on the retention of fish caught during recreational fishing and commercial fishing, respectively, for the remainder of the fishing year; and

(2) ensure that such quotas reflect allocations among such sectors and do not reflect any harvests in excess of such allocations.
